# Geauga County, Ohio Comprehensive Annual Financial Report

# For the Year Ended December 31, 2019

# **ABOUT THE COVER**

Pictured on the cover is the Geauga County Engineer's Office located at 12665 Merritt Road in Claridon Township. The addition, completed in 2016, allowed the Engineer to consolidate the administrative offices, previously located at 470 Center Street, with the garage and storage facilities to increase communication and efficiency.

The County Engineer, per Ohio Revised Code Section 5543, is charged with the responsibility of the Construction, Reconstruction, Improvement, and Maintenance of all County roads and bridges. The County Engineer is also required to perform the engineering services for all Township roads.

The County Engineer is responsible for oversight of:

- 235 miles of County Roads
- 187 bridges
- 577 miles of Township Roads
- Serves as the County's Surveyor and Civil Engineer
- Various permits Driveway, Highway use, Ditch Enclosure, and Hauling permits.

Residents with questions or concerns regarding the Geauga County Engineer's Office are encouraged to contact the Office by email <u>gce@co.geauga.oh.us</u> or at the phone or fax below. Or you may visit their website at <u>www.geaugacountyengineer.org</u> for additional information and resources.

# Auditor Charles E. Walder Chief Fiscal Officer

March 1, 2021

To the Citizens of Geauga County and to The Board of County Commissioners: the Honorable James W. Dvorak the Honorable Timothy Lennon, and the Honorable Ralph Spidalieri

It is my privilege to present to you Geauga County's (the County) Comprehensive Annual Financial Report (CAFR). This report enables the County to comply with Ohio Administrative Code Section 117-2-03 (B), which requires reporting on a GAAP (Generally Accepted Accounting Principles), basis, and Ohio Revised Code Section 117.38 which requires the counties reporting on a GAAP basis to file unaudited General Purpose External Financial Statements with the Auditor of State within 150 days of year end.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Under Ohio law, regular audits are required to be performed on all financial related operations of the County. These audits may be done by either the State Auditor's Office or, if the State Auditor permits, an independent public accounting firm. For the year 2019, the County was audited by the Auditor of State's Office. Their unmodified opinion is included in the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

#### **Reporting Entity**

Geauga County was first organized by the General Assembly on March 1, 1806, as the second county in the Western Reserve. The name "Geauga," meaning "raccoon," is derived from the Native American language of the area. In 1789, three Connecticut families founded the first settlement in Geauga County at present-day Burton. A one-room log building was first erected in Chardon in 1808 to serve as a temporary courthouse and County seat. The first permanent courthouse was built on the southwest corner of Chardon's Public Square in 1813 at a cost of \$600. In March 1840, the residents of Painesville petitioned the General Assembly to designate Painesville as the County seat rather than Chardon, creating the present-day split between Geauga and Lake Counties. The present courthouse was built in 1869 at a cost of \$88,862.

Courthouse Annex, 231 Main Street, Suite 1A, Chardon, OH 44024-1293 Direct Line: (440) 279-1600 FAX: Fiscal Office (440) 279-2184 \* Real Estate/Appraisal (440) 286-4359 Web site: http://www.auditor.co.geauga.oh.us Email: auditor@co.geauga.oh.us Because of the hills and heavy forest throughout the County, early settlers took up the dairy business. At one time, nearly 60 creameries were in operation. Middlefield is now the center of the County's cheese-making industry, while other areas of the County currently produce rubber, electrical machinery, cabinetry, metals and a variety of other products. Charles Martin Hall, born in Thompson Township, was the inventor of processed aluminum that contributed to the industrial growth of the County. Geauga County is the home of the oldest continuous County Fair in Ohio and is a leader in the production of maple products.

Geauga County is a predominantly rural Northeastern Ohio County, located due south of Lake County and directly east of Cuyahoga County and the City of Cleveland. The County is comprised of sixteen townships, five villages and one city covering an area of approximately 408 square miles. The County is served by four U.S. highways extending 56.6 miles in the County and twelve State highways extending 137.6 miles in the County. Freight carriers provide the major mode of transporting goods. Because of the County's strategic location, a number of large freight carriers have facilities located here. The nearest commercial airport is Cleveland-Hopkins International Airport located approximately forty-five miles west of the City of Chardon. The County Airport, in Middlefield, and the Cuyahoga County Airport, located within five miles of the County limits, provide additional transportation facilities.

Public education in the County is conducted primarily by six school districts. Five of these districts operate a joint vocational facility, which offers students a chance to learn auto mechanics, information processing, cosmetology, agricultural management, and health occupations along with their typical junior and senior year studies. A number of private and parochial schools are located within or nearby the County. Residents of the County also have access to a wide range of higher educational facilities. A branch of Kent State University in the Village of Burton provides a two-year course of study. Within commuting distance are several public and private two-year and four-year colleges and universities, including the main campus of Kent State University, Hiram College, Notre Dame College, John Carroll University, Lake Erie College, Case Western Reserve University, Cuyahoga Community College, Cleveland State University, Lakeland Community College, Ursuline College and the University of Akron.

The County provides its citizens with a wide range of services that include human and social services, health and community assistance services, civil and criminal justice system services, road and bridge maintenance, and other general and administrative support services. The County also operates enterprise funds, which include water resources, water district and storm water.

For financial reporting purposes, the County includes all funds, agencies, boards and commissions making up Geauga County (the Primary Government) and its Component Unit in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 14 "The Financial Reporting Entity" and (GASB) Statement No. 61, "The Financial Reporting Entity: Omnibus an amendment of GASB 14 and 34. The Primary Government includes the financial activities of the Children's Services Board, the County Board of Developmental Disabilities, and the Geauga County Board of Mental Health and Recovery Services.

The County serves as fiscal agent but is not financially accountable for the Geauga County Combined Health District and the Geauga County Soil and Water Conservation District, whose activities are included in this report as agency funds. Metzenbaum Sheltered Industries Workshop, a non-profit organization, has been included as a discretely presented component unit, based on the significant services and resources provided by the County.

Excluded from the reporting entity because they are legally separate and fiscally independent of the County are the Geauga County Educational Service Center, the Geauga County Historical Society, the Geauga Hospital, the Senior Citizens Center, the Geauga County Agricultural Society, the Geauga County Humane Society and Geauga Community Action, Incorporated.

The Emergency Management Agency, the Geauga/Trumbull Solid Waste District, and the Portage-Geauga Juvenile Detention and Rehabilitation Center are governmental joint ventures and the County Risk Sharing Authority (CORSA) and the County Commissioners Association of Ohio Workers' Compensation Group-Retrospective-Rating Plan are public entity risk pools in which the County participates. The County serves as fiscal agent for the Emergency Management Agency, and the Family First Council; therefore, they are reflected as agency funds within this report.

The Northeast Ohio Areawide Coordinating Agency, the Geauga County Regional Airport Authority, the North East Ohio Network, the Family First Council, the Northeast Ohio Consortium Council of Governments, and the Northeast Ohio Community Alternative Program Facility are jointly governed organizations of the County. The Geauga County Public Library and the Geauga County Park District are related organizations of the County.

A complete discussion of the County's reporting entity is provided in Notes 1, 13, 14, 15 and 24.

#### The County Form of Government

The County has only those powers conferred upon it by Ohio statutes. A three-member board of County Commissioners is elected at large in even-numbered years for overlapping four-year terms. The Commissioners serve as the taxing authority, the contracting body, and the chief administrators of public services for the County. The Board of Commissioners creates and adopts the annual operating budget and makes the annual appropriation measure for expenditures of all County funds. In addition to the Board of Commissioners, the offices of the County Auditor and the County Treasurer, grouped under the category of general government, are of particular importance to the financial affairs of the County.

The County Auditor is elected to a four-year term and has as one of his most important functions, the task of assessing real property for tax purposes. Under State law, a complete reappraisal must be conducted every six years as well as a triennial update between reappraisals. Following collection by the County Treasurer, the County Auditor is responsible for distributing certain taxes to various government units. The County Auditor is also the chief fiscal officer of the County, and no County contract or obligation may be made without his certification that funds for that contract or obligation have been lawfully appropriated and are available for payment or are in the process of collection. In addition, no account may be paid except by the County Auditor's warrant drawn upon the County Treasury. The County Auditor is responsible for the County's payroll and has other statutory accounting responsibilities. The County Auditor is also in charge of the County's bond retirement fund. By State law, the County Auditor is secretary of the County Board of Revision and the County Budget Commission, and the administrator and supervisor of the County Data Processing Board.

The County Treasurer, serving a four-year term, is required by State law to collect certain locally assessed taxes. The Treasurer is also responsible for investing all idle County funds as specified by Ohio law. He is the distributing agent for expenditures authorized by the Board upon the Auditor's warrant. The County Treasurer must make daily reports showing receipts, payments and balances to the County Auditor, and the books of account must always balance with those of the County Auditor. The County Treasurer is a member of the County Board of Revision. In addition, the County Treasurer, the County Auditor and the Prosecuting Attorney form the County Budget Commission which plays an important part in the financial administration of County government as well as in all local governments throughout the County.

In addition to these officials, citizens also elect other County administrative officials, each of whom is independent within the limits of State statutes affecting their particular office. These officials include the County Prosecutor, County Engineer, County Coroner, Clerk of Courts, County Recorder, and the County Sheriff. These officials are elected to four-year terms. The citizens also elect the Common Pleas Judges and both General and Juvenile/Probate divisions to six-year terms.

The County Prosecutor is responsible for all legal matters for the County and all townships and local school districts within the County. The office is responsible for criminal cases such as felonies, child support delinquencies and tax foreclosures, as well as serving as the contact for victim assistance. The Prosecutor serves on the County Budget Commission.

The County Engineer is required by Ohio law to be a registered professional engineer and surveyor and serves as the civil engineer for the County and its officials. His primary responsibilities relate to the construction, maintenance and repair of County roads and bridges, related roadside drainage facilities and storm or surface runoff systems. He also prepares tax maps for the County Auditor.

The County Coroner is responsible for ordering autopsies, investigating suspicious deaths and issuing death certificates.

The Clerk of Courts is responsible for two divisions: legal and title. The legal division's main function is to file, process and preserve papers for cases that will be handled by the County Common Pleas Court, the District Court of Appeals. The title division's main function is to issue vehicle titles which serve as a person's only proof of ownership. All vehicles purchased in or out of the County by County residents are titled in Geauga County.

The County Recorder is responsible for recording and maintaining all deeds, mortgages, liens, and veterans discharge records.

The County Sheriff is the chief law enforcement officer of the County and provides certain specialized services which include maintaining a special staff of deputies whose duties are to assist local law enforcement officers upon their request and to enforce the law in unincorporated areas of the County. The Sheriff also operates and maintains the County jail and is responsible for its inmates, including persons detained for trial or transferred to other institutions.

The Common Pleas Court General Division's jurisdiction covers four categories of cases: criminal, civil, domestic relations, and administrative. The criminal cases are all felonies, which are the most serious crimes. Civil cases include personal injuries, business disputes, property matters, and equity cases. Domestic relations cases involve the issues relating to the break-up of the family unit as people go through divorce or dissolution. An example of an administrative case is zoning which may be appealed to the Eleventh District Court of Appeals and/or the Supreme Court of Ohio.

The Probate Court has jurisdiction to hear cases involving name changes, estates, guardianships, adoptions, conservatorships, releases from administration, trusts, wrongful death, marriages licenses, registration of birth and correction of birth records, mental illness, mental developmental disabilities, and civil actions.

The Juvenile Court has jurisdiction to hear delinquency, juvenile traffic, unruly, abuse, dependency, neglect, paternity, custody, visitation, child support, permanent custody, relinquishment of jurisdiction and limited adult criminal cases. The Judge is the ex officio clerk of the juvenile division and is responsible for all court records.

#### Local Economy

Some of Geauga County's largest employers include University Hospital Health Systems, Kraftmaid Cabinetry, WalMart, and Geauga County Government. Four out of the ten largest employers in Geauga County are government agencies. They include Geauga County, Kenston Local School District, Chardon Local School District and West Geauga Local School District.

According to the Ohio Department of Development, Geauga County's population is estimated at 93,649 for 2019, which represents a 0.28 percent increase from the 2010 census figure of 93,389. The unemployment of the County averaged 3.5 percent for 2019. The State average was 4.1 and the National average was 3.7 percent for 2019. The County's December 2019 unemployment rate of 3.1 ranks Geauga County as the eleventh lowest in the State.

#### Long-Term Financial Planning

The Board of County Commissioners, in anticipation of future retirements, has decided to designate a portion of the general fund's ending balance for sick and vacation payouts. The County pays 100 percent of accumulated unused vacation upon retirement and 25 percent of the accumulated sick time up to a maximum of 240 hours. Periodically, the Board of County Commissioners evaluates potential retirees in order to determine future requirements and adjusts the designation accordingly. For further information regarding the County's sick and vacation leave see Note 20 of the basic financial statements.

#### **Relevant Financial Policies**

The County Treasurer and the Investment Advisory Committee adopted an investment policy on July 1, 2003. The purpose of this policy is to establish priorities and guidelines regarding the investment management of the County's operating funds. These priorities and guidelines are based upon Chapter 135.35 ORC and prudent money management. The policy also follows Section 135.35 ORC in establishing what qualifies as an eligible investment. Safety of principal is the most important objective of the County's investment policy. The policy also focuses on issues regarding liquidity and yield.

#### Major Initiatives

During 2019, the Office of the Geauga County Engineer completed pavement improvements on seven (7) projects covering approximately nineteen and one-half (19.5) miles of roadway. Additionally, multiple culverts were repaired or replaced and eighty one (81) miles of road were restriped. The cost for the work performed in 2019 totaled nearly \$4.74 million. The County was able to utilize \$1,100,000 of State aid to accomplish these improvements.

Asphalt resurfacing projects were completed for portions of Rapids Road, Mentor Road, Wilson Mills Road, Caves Road, Munn Road, Clay Street and Kile Road.

During 2019, The Geauga County Department of Community and Economic Development (CED) completed the Geauga County Airport ADA bathroom renovation project. This project was funded through the 2017-18 Allocation Grant from the State of Ohio and paid from the construction capital projects fund.

The Geauga CED provides fair housing education and outreach county-wide by means of landlord/tenant workshops, public meetings and mailings and manages inquiries from residents who present civil rights issues/claims.

During 2019, the Geauga CED finalized a Geauga County Revolving Loan fund loan to a local company for \$199,000. Eight new jobs are anticipated to be created on the project. There are currently thirteen active revolving loan fund clients and five local revolving loan fund clients. All loans are current.

#### Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Geauga County for its Comprehensive Annual Financial Report for the year ended December 31, 2018. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of State and local government financial reports. In order to be awarded a Certificate of Achievement, the government had to

publish an easily readable and efficiently organized comprehensive annual financial report that satisfied both generally accepted accounting principles (GAAP) and applicable legal requirements. This was the twenty-seventh consecutive year that the County has received this prestigious award. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The publication of this CAFR displays Geauga County's ability to provide significantly enhanced financial information and accountability to the citizens of Geauga County, its elected officials, County management, and investors.

The preparation of this report would not have been possible without the cooperation of every County department and agency. I want to express my appreciation to the Geauga County Board of Commissioners for their support for this endeavor from its inception. The guidance given by Local Government Services of the Auditor of State's Office was also most helpful and appreciated. I would also like to thank all of the elected officials, department heads, and their staffs for their assistance and cooperation on this project.

The Geauga County Auditor's office has worked to maintain a level of professionalism and sound financial reporting which have as their cornerstone the preparation and publication of this report. The report increases public confidence in its elected officials and accountability of the governmental unit as a whole. The report also provides a fair representation of the financial condition of the County as of and for the year ended December 31, 2019. We ask for your continuing support of this project in the future and in our efforts to best serve the Citizens of Geauga County.

Planning, coordinating, compiling, and completing this report is the responsibility of Chief Deputy Auditor, Ronald Leyde. I gratefully acknowledge his dedication and professionalism as well as those of the other members of the County Auditor's staff especially Beverly Sustar and Blerina Qorri.

Sincerely,

Charles E. Walder Geauga County Auditor

#### INDEPENDENT AUDITOR'S REPORT

Geauga County 470 Center Street Chardon, Ohio 44024

To the Board of County Commissioners:

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of Geauga County, Ohio (the County), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Geauga County Independent Auditor's Report Page 2

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the County, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and Developmental Disabilities Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis, schedules for infrastructure assets accounted for using the modified approach*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements the underlying accounting statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Geauga County Independent Auditor's Report Page 3

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will also issue our report dated March 1, 2021, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

The discussion and analysis of Geauga County's financial performance provides an overall review of the County's financial activities for the fiscal year ended December 31, 2019. The intent of this discussion and analysis is to look at the County's financial performance as a whole. Readers should also review the transmittal letter, financial statements and notes to those respective statements to enhance their understanding of the County's financial performance.

## **Financial Highlights**

Key Financial Highlights for 2019 are as follows:

- The County's total assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at December 31, 2019 by approximately \$210.67 million (net position). Of the approximately \$210.67 million of net position , governmental activities accounted for approximately \$181.89 million of net position and business-type activities accounted for approximately \$28.78 million of net position. The County's overall net position decreased from the prior year due to increases related to the County's net pension liability.
- The County Engineer made numerous road improvements throughout the County. The County was able to use State grant monies to help offset these costs.
- The County invested in new vehicles for several County departments including the Sheriff's Office, Aging, Transit Department and Public Assistance. Some vehicles included new police cruisers, sport utility vehicles and a van. Equipment was also purchased for several departments which included a printer and various pieces of street and maintenance equipment.
- Geauga County, while not immune to the economic conditions that have affected the United States, has reason for optimism. The unemployment rate has decreased a second year in a row after several increases. New commercial/industrial construction doubled from last year and Home Sales and Average Home Sale Prices have increased as well.
- The County Commissioners granted a 3 percent pay increase in 2019 and most elected officials followed suit. The County actively seeks grants in order to maintain and improve the services the County residents expect while still maintaining the costs of those services.

# Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the readers can understand Geauga County as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole County, presenting both an aggregate view of the County's financial condition and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the County's most significant funds with all other nonmajor funds presented in total in one column.

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

### **Reporting the County as a Whole**

#### Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the County to provide programs and activities, the view of the County as a whole looks at all financial transactions and asks the question, "How did we do financially during 2019?" The statement of net position and the statement of activities answers this question. These statements include all non-fiduciary *assets* and *deferred outflows of resources* and *liabilities* and *deferred inflows of resources* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's *net position* and changes in net position. This change in net position is important because it tells the reader that, for the County as a whole, the *financial position* of the County has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the County's tax base, current property tax laws in Ohio restricting revenue growth, and other factors.

In the statement of net position and the statement of activities, the County is divided into three distinct kinds of activities:

*Governmental Activities* – Most of the County's programs and services are reported here including human services, health, public safety, public works and general government. These services are funded primarily by taxes and intergovernmental revenues including federal and state grants and other shared revenues.

*Business-Type Activities* – These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided.

*Component Unit* – The County includes financial data of the Metzenbaum Sheltered Workshop (the "Workshop"). The Workshop is a legally separate, non-profit organization served by a self-appointing board of trustees. The Workshop, under a contractual agreement with the Geauga County Board of Developmental Disabilities, provides a comprehensive program of services, including employment for developmentally disabled citizens. The component unit is separate and may buy, sell, lease and mortgage property in their own name and can sue or be sued in their own name.

### **Reporting the County's Most Significant Funds**

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objective. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

Fund financial reports provide detailed information about the County's major funds. The County uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the County's most significant funds. The County's major governmental funds are the general fund and the developmental disabilities special revenue fund.

*Governmental Funds* Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

**Proprietary Funds** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The County only utilizes enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses several enterprise funds to account for various operations. The County's major enterprise funds are the water resources, water district and storm water funds.

*Fiduciary Funds* Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The County has an investment trust fund that accounts for the external portion of the County's investment pool. The County also has agency funds. Agency funds are custodial in nature (assets equaling liabilities) and do not involve measurements of results of operations. The accounting used for fiduciary funds is much like that used for proprietary funds.

*Notes to the Financial Statements* The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

*Other Information* In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information required by Governmental Accounting Standards Board Statement No. 34 relating to disclosure about infrastructure reported using the modified approach. The combining and individual fund statements and schedules are presented immediately following the required supplemental information on infrastructure.

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

## The County as a Whole

You may recall that the statement of net position provides the perspective of the County as a whole. Table 1 provides a summary of the County's net position for 2019 compared to 2018:

|   |                | (Table 1)<br>Net Position<br>(in millions) |               |               |                |          |
|---|----------------|--|---------------|---------------|----------------|----------|
|   | Governmenta    | l Activites                                | Business-Typ  | e Activites   | Tota           | 1        |
| -   | 2019           | 2018                                       | 2019          | 2018          | 2019           | 2018     |
| Assets  |                |  |               |               |                |          |

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

The net pension liability (NPL) is one of the largest single liabilities reported by the County at December 31, 2019, GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange; however, the County is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee contribution rates are capped by State statue. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

As one can see from the decrease in overall net position, the County's overall financial position has declined from the prior year. The increase in governmental current assets is largely due to an increase in property taxes receivable as a result of new construction. The County was able to provide the services that the County residents expect while maintaining the costs of providing those services. The decrease in governmental capital assets is due to an additional year of depreciation partially offset by current year additions. The significant increase in total deferred outflow of resources in 2019 was due to a change in the difference between projected and actual earnings on investments related to the County's net pension liability for OPERS. The net pension liability increase represents the County's proportionate share of the OPERS traditional plan's unfunded benefits. The significant decrease in total deferred inflow of resources in 2019 was due to a decrease in the difference between projected and actual earnings on investments related to the County's net pension liability for OPERS.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for 2019 and 2018.

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

During 2019, real estate collections remained consistent with the previous year. This is due to steady collection rates for current and delinquent taxes.

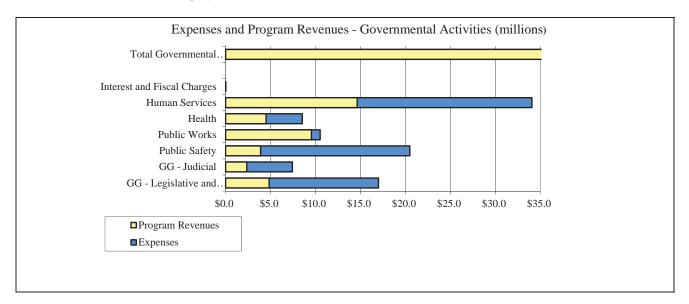

While the economy has had a great impact on the entire State, Geauga County has diligently worked to promote the area. Sales tax revenue saw an increase in collections during the year. Several new retail businesses moved into the County and expansion of existing facilities during the year boosting sales tax revenue and increasing confidence in the economy.

The increase in public safety is mainly due to the annual pension expense for their proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows. There were also small increases in the use of 800 communication systems and other public safety funds that contributed to the overall increase in public safety expenses.

The increase in public works expenses is due to the Office of the Geauga County Engineer completing more asphalt resurfacing projects compared to the prior year as well as pavement marking and sign upgrades throughout the County. It is the practice of the Geauga County Engineer to maintain at least eighty percent of the mileage of the County highway system at an appraisal rating of five or more. Please see the required supplementary information of this report for additional information on the County's reporting of infrastructure.

The County actively pursues grants and controls expenses while still maintaining the high standards the residents expect of the County. Management continues to diligently plan expenses, staying carefully within the County's revenues.

Geauga County's economy has been resilient in contrast to other counties in the State of Ohio. The key factor is the industrial growth the County experienced over the past two decades as well as the rural atmosphere that has attracted many residents from the greater Cleveland area to relocate in the County while still commuting to the Cleveland area for employment.

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

## **Financial Analysis of the Government's Funds**

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

*Governmental Funds* The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of expendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the year.

As of the end of the current year, the County's governmental funds reported combined ending fund balances of \$65,382,186. \$8,999,794 of this total amount constitutes unassigned fund balance, which is available for appropriation at the government's discretion within certain legal constraints and purpose restrictions. The remainder of the fund balance is nonspendable, restricted, committed or assigned to indicate that it is not available for new spending.

The general fund revenues and expenditures both increased during the year. The largest revenue source for the general fund is sales tax. There was a small increase in sales tax collections during the year. Sales tax revenue is up from the prior year due to confidence in the economy creating increased spending. Expenditure increases can be attributed to the 3 percent salary increase granted to employees. In addition to expenditure increases, the County saw an increase in transfers made to other governmental funds to provide additional resources to support various programs. The combination of these changes resulted in a fund balance decrease of \$2,412,665.

As reflected in the developmental disabilities fund, the County actively seeks grants in addition to the Countywide property tax levy in order to assist residents that are developmentally or physically challenged to not only be able to live independently but to enjoy fully what the world has to offer. Grants received during the year decreased from 2018. Property tax revenue continued to increase due to new construction within the County. The levy was passed in order to bring in more revenue to cover the costs to continue providing services. Expenditures decreased during the year due to a drop in pass-through funding to local school districts from the Ohio Department of Education.

Other governmental funds had an increase in fund balance due to increased revenues exceeding expenditures.

**Proprietary Funds** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The decrease in the water resources fund can be attributed to an increase in contractual services expenses related to an increase in maintenance costs in the water resources fund. The water district fund decreased due to the yearly transfer to water resources as well as increases in contractual services expenses. The storm water fund had an increase in available cash and decrease in special assessment receivables at the end of the year as the County continues to collect special assessments that will be used for the future maintenance of the County's storm water system.

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

## **General Fund Budgeting Highlights**

Budgeting is prescribed by the Ohio Revised Code. Essentially the budget is the County's appropriations which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the Revised Code. During the course of 2019, the County amended its general fund budget numerous times to allow for insignificant amendments. Actual revenues received were \$5,952,762 higher than certification primarily due to conservative estimates in property taxes, sales taxes, charges for services, intergovernmental and interest revenue. Actual expenditures were \$2,755,544 less than appropriations due mainly to the diligence of management to keep costs low.

### **Capital Assets and Debt Administration**

#### **Capital Assets**

Table 3 shows 2019 values compared to 2018.

(T, 1, 1, 2)

The County continued the annual replacement of sheriff's cars, as well as purchasing vehicles for several departments including Aging, Transit and Public Assistance. Street maintenance, and office equipment was also purchased during the year for several departments. These increases were offset by an additional year of depreciation being taken and the sale of buildings.

The County reports its roads and bridges infrastructure assets using the modified approach. The County has decided to use the modified approach because the assets are expected to continue to function indefinitely because of the current maintenance program in place.

The Geauga County Engineer has implemented a five-year program for road repairs and improvements. This plan changes continually based upon conditional inspections and budget allowances. Factors considered when evaluating a roadway include time since the last surface maintenance, current pavement condition (cracking, alligatoring, etc.) from visual observation, traffic volume and traffic type. A numerical rating ranging from 0 to 9 is assigned to sections of the roadways as a result of the yearly visual observations, with 0 being the lowest

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

ranking and 9 being the highest. It is the practice of the Geauga County Engineer to maintain at least eighty percent of the mileage of the County highway system at an appraisal rating of five or more. The most recent assessment found that 100 percent of the County roads have a numerical rating of five or higher.

An up to date inventory of all bridges is maintained for all County owned bridges. Each bridge is evaluated annually based on the State Law and in accordance with Ohio Department of Transportation (ODOT) recommendations. Each bridge is given an ODOT sufficiency rating based upon bridge inspection rating factors. It is the practice of the County Engineer to maintain a bridge system in the County where 95 percent of the structures have a bridge appraisal rating of five or more. The most recent assessment found that 99 percent of the County bridges have a numerical rating of 5 or higher. See the Required Supplementary Information on page 101 for additional information about the County's Infrastructure.

See Note 17 to the basic financial statements for additional information on the County's capital assets.

#### Obligations

Table 4 below summarizes the County's long-term obligations outstanding.

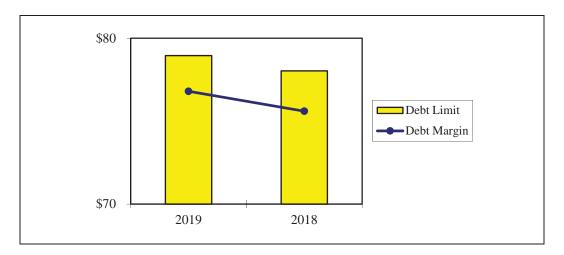

| (Table 4)                                     |         |         |         |         |          |         |  |  |

| Total   | \$96.68 | \$66.05 | \$17.21 | \$16.05 | \$113.89 | \$82.10 |  |  |

(Table 4)

The special assessment bonds were primarily issued for sanitary sewer improvements. The principal and interest for these bonds are retired with assessments levied against property owners in the County based on the benefit to the respective parties. Business-type debt includes revenue bonds issued for sanitary sewer projects, and OPWC and OWDA loans outstanding for infrastructure improvements projects, which are repaid using water resource revenues.

The County's overall legal debt margin was \$76.8 million. This margin is the additional amount of debt the County could issue.

Management's Discussion and Analysis For the Year Ended December 31, 2019 (Unaudited)

The County continues to monitor its outstanding debt. Information relative to debt is identified in Note 21 to the basic financial statements.

#### **Current Issues**

Geauga County has continued to maintain the highest standards of services to our communities while diligently planning expenses, to stay within the County's revenues. As with all counties in the State of Ohio, State funding issues are constantly monitored to determine the impact on the County. The overall position of the County has improved over the last few years. As the preceding information shows, the County is heavily reliant on sales tax and local property taxpayers. Sales tax collections have steadily increased over the last three years as consumer spending has increased in the County. Property tax collections have been slightly up and down over the last several years. Property tax revenue remained consistent for 2019 due to the steady collections from the new levies as well as in delinquent property taxes collections. Additional revenues must not be treated as a windfall to expand programs but as an opportunity to extend the time horizon of the life of the levies. All of the County's financial abilities will be needed to meet the challenges of the future.

In conclusion, Geauga County is in a period posing both significant challenges and opportunities. Management is committed to working with all stakeholders to craft solutions that will most effectively use the available resources to continue to provide excellent services to the residents of the County.

#### **Contacting the County's Financial Management**

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to Charles E. Walder, Geauga County Auditor, 231 Main Street, Suite 1A, Chardon Ohio 44024-1293, (440) 279-1600 or email at <u>auditor@co.geauga.oh.us</u>, or visit the County Web Site:

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2019

| Net Change in Fund Balances - Total Governmental Funds  | \$12,156,646 |
|---|--------------|
| Amounts reported for governmental activities in the statement of activities are different because   |              |
| Governmental funds report capital outlays as expenditures. However, in the statement of<br>activities, the cost of those assets is allocated over their estimated useful lives as<br>depreciation expense. This is the amount by which depreciation exceeds capital outlay<br>in the current period:Capital Asset Additions2,092,610<br>(2,913,092) |              |
| Total   | (820,482)    |
| Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.  | (1,452,112)  |
| Revenues in the statement of activities that do not provide current financial resources<br>are not reported as revenue in the funds:Delinquent Property Taxes30,018Sales Taxes514,683Intergovernmental1,574,449Permissive Motor Vehicle Tax1,014,209Special Assessments(107,695)  |              |
| Total   | 3,025,664    |
| Repayment of long-term obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.   | 141,240      |
| In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.  | 526          |
| Some expenses, such as compensated absences, reported in the statement of activities do not require the use of current financial resources and therefore are not reported as an expenditure in governmental funds.  | (197,233)    |
| Contractually required contributions are reported as expenditures in governmental funds;<br>however, the statement of net position reports these amounts in deferred outflows.<br>Pension 4,726,750<br>OPEB 49,547  |              |
| Total   | 4,776,297    |
| Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB<br>liability and asset are reported as pension expense in the statement of activities.<br>Pension (13,501,340)<br>OPEB (2,299,749)  |              |
| Total   | (15,801,089) |
| Change in Net Position of Governmental Activities   | \$1,829,457  |
|   |              |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

# Note 1. Description of Geauga County and Reporting Entity

Geauga County, Ohio (the County) was created in 1806. The County is governed by a Board of three commissioners elected by the voters of the County. An elected County Auditor serves as chief fiscal officer. In addition, there are seven other elected administrative officials. These officials are: Clerk of Courts, Treasurer, Prosecuting Attorney, Coroner, Engineer, Sheriff, and Recorder. There are also two elected Common Pleas Court Judges and one elected Common Pleas Probate/Juvenile Court Judge. Although these elected officials manage the internal operations of their respective departments, the County Commissioners serve as the budget and taxing authority, contracting body, and the chief administrators of public services for the County, including each of these departments.

The County's major operations include human and social services, certain health care and community assistance services, a civil and criminal justice system, road and bridge maintenance and general administrative services. In addition, the County operates a water and sewer system.

### **Reporting Entity**

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the County. For Geauga County, this includes the Children's Services Board, the Board of Developmental Disabilities, the Board of Mental Health and Recovery Services and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units also include organizations that are fiscally dependent on the County in that the County approves the budget, the issuance of debt, or the levying of taxes and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

The component unit column in the financial statements identifies the financial data of the County's discretely presented component unit, Metzenbaum Sheltered Industries Workshop. It is reported separately to emphasize that it is legally separate from the County.

*Metzenbaum Sheltered Industries Workshop (the Workshop)* – Metzenbaum Sheltered Workshop is a legally separate, non-profit organization served by a self-appointing board of trustees. The Workshop, under a contractual agreement with the Geauga County Board of Developmental Disabilities, provides a comprehensive program of services, including employment for developmentally disabled citizens. The Geauga County Board of Developmental Disabilities provides the Workshop with resources and personnel for the operation of the Workshop including staff salaries and benefits and certain supplies and advertising. Based on the significant services and resources provided by the County to the Workshop and the Workshop's sole purpose of providing assistance to the handicapped adults of Geauga County, it was determined that to exclude the Workshop from the County's report would make the report incomplete. Metzenbaum Sheltered Industries operates on a fiscal year ending December 31. Separately issued financial statements can be obtained from the Metzenbaum Sheltered Industries Workshop, 8202 Cedar Road, Chesterland, Ohio, 44026.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

The County participates in the following joint ventures, public entity risk pools, jointly governed organizations and related organizations. These organizations are presented in Notes 13, 14, 15 and 24 to the Basic Financial Statements and are excluded from the accompanying financial statements.

Emergency Management Agency Geauga/Trumbull Solid Waste District Portage-Geauga Juvenile Detention and Rehabilitation Center County Risk Sharing Authority County Commissioners Association of Ohio Workers' Compensation Group-Restrospective-Rating Plan Northeast Ohio Areawide Coordinating Agency Geauga County Regional Airport Authority North East Ohio Network Family First Council Northeast Ohio Consortium Council of Governments Northeast Ohio Community Alternative Program Facility Geauga County Public Library Geauga County Park District

As the custodian of public funds, the County Treasurer invests all public moneys held on deposit in the County Treasury. In the case of the legally separate agencies, boards and commissions listed below, the County serves as fiscal agent, but the organizations are not considered a part of Geauga County. Accordingly the activity of the following districts are presented as agency funds within the County's financial statements:

*Geauga County Combined Health District* – The five member Board of Health which oversees the operation of the Health District is elected by a District Advisory Council comprised of Township Trustees and Mayors of participating municipalities. The Board adopts its own budget, hires and fires its own staff, and operates autonomously from the County.

*Geauga County Soil and Water Conservation District* – The Soil and Water Conservation District is created by statute as a separate and distinct political subdivision of the State. The five supervisors of the Soil and Water Conservation District are elected officials authorized to contract and sue on behalf of the District. The supervisors control their own operations and budget and do not rely on the County to finance deficits.

Information in the following notes to the basic financial statements is applicable to the primary government. When information is provided relative to the Workshop, it is specifically identified.

# Note 2. Summary of Significant Accounting Policies

The financial statements of Geauga County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

#### **Basis of Presentation**

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

*Government-wide Financial Statements* The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type.

The Workshop uses a business-type fund to report financial position and the results of its operations.

The statement of net position presents the financial condition of the governmental and business-type activities of the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the business-type activities of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. The policy of the County is to not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

*Fund Financial Statements* During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

### **Fund Accounting**

The County uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

*Governmental Fund Types* Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

*General* The general fund accounts for and reports all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio.

*Developmental Disabilities* The Developmental Disabilities fund accounts for and reports the operations of a school and the costs of administering a workshop for the developmentally disabled. Restricted revenue sources include a County-wide property tax levy and Federal and State grants.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

The other governmental funds of the County account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

*Proprietary Funds* Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The following is the County's proprietary fund type:

*Enterprise Funds* Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the County's major enterprise funds:

*Water Resources* The Water Resources fund is used to account for sanitary sewer services provided to individuals and commercial users in the majority of the unincorporated areas of Geauga County. The cost of providing these services is financed primarily through user charges. This sewer district has its own facilities and rate schedule.

*Water District* The Water District fund is used to account for water services provided to individuals and commercial users in the majority of the unincorporated areas of Geauga County. The cost of providing these services is financed primarily through user charges. This water district has its own facilities and rate schedule.

*Storm Water* The Storm Water fund is used to account for transfers and charges for services for the construction and operation of drainage facilities.

*Fiduciary Fund Types* Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the County's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The County's fiduciary funds account for an investment trust fund and agency funds. Agency funds are used to account for assets held by the County as agent for the Board of Health and other districts and entities and for various taxes, assessments, and State shared resources collected on behalf of and distributed to other local governments. The County's investment trust fund accounts for the external portion of the County's investment pool.

#### **Measurement Focus**

*Government-wide Financial Statements* The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the County are included on the Statement of Net Position. The Statement of Activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net position.

*Fund Financial Statements* All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources, generally, are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

The Workshop uses an enterprise fund to report its financial position and the results of its operations. This fund uses the economic resources measurement focus and the accrual basis of accounting.

### **Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues** – Exchange and Non-exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within thirty one days of year-end. Nonexchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the sale occurred. Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 8). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: sales tax (see Note 9), interest, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees and rentals.

*Unearned Revenue* Unearned revenue for the Workshop represents amounts under the accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned.

**Deferred Outflows/Inflows of Resources** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the County, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, pension and OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB are explained in Notes 18 and 19.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the County, deferred inflows of resources include property taxes, pension, OPEB and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2019, but which were levied to finance year 2020 operations. These amounts have been recorded as deferred inflow on both the government-wide statement of net position and the government fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the County, unavailable revenue includes delinquent property taxes, sales taxes intergovernmental grants, permissive motor vehicle tax and special assessments. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities found on page 21. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (See Notes 18 and 19).

*Expenses/Expenditures* On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

The Workshop allocates its expenses on a functional basis among its various programs and support services. Expenses and support services that can be identified with a specific program are allocated directly according to their natural expenditure classification. Other expenses that are common to several programs are allocated based on estimates established by the Workshop.

### Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pension/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

### Cash and Cash Equivalents

To improve cash management, cash received by the County is pooled in a central bank account. Monies for all funds are maintained in this account or are temporarily used to purchase short term investments. Individual fund integrity is maintained through the County's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents." The Workshop's money is presented as "Equity in Pooled Cash and Cash Equivalents."

During 2019, investments were limited to commercial paper, STAR Ohio, First American Government Obligation Mutual Fund, Municipal Securities, Federal Farm Credit Bank Notes, Federal National Mortgage Association Notes, Federal Home Loan Mortgage Corporation Notes and Federal Home Loan Bank Bonds.

Investments are reported at fair value which is based on quoted market prices. The County's commercial paper is measured at amortized cost as it is a highly liquid debt instrument with a remaining maturity at the time of purchase of less than one year.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, *Certain External Investment Pools and Pool Participants*. The County measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2019, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, twenty-four hours advance notice is appreciated for deposits and withdrawals of \$25 million or more. STAR Ohio reserves the right to limit the transactions to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Investment procedures are restricted by the provisions of the Ohio Revised Code. Interest revenue credited to the general fund during 2019 amounted to \$2,225,936, which includes \$1,710,236 assigned from other County funds.

Investments with an original maturity of three months or less at the time of purchase and investments of the cash management pool are presented on the financial statements as cash equivalents.

The County has segregated bank accounts for monies held separate from the County's investment pool. These interest bearing depository accounts are presented as "Cash and Cash Equivalents in Segregated Accounts" since they are not required to be deposited into the County treasury.

#### **Restricted Assets**

Assets are reported as restricted when limitations on their use change in nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments or imposed by law through constitutional provisions or enabling legislation. Restricted assets in the general fund represent money set aside for unclaimed monies.

#### Inventories

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption.

#### Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The County was able to estimate the historical cost for the initial reporting of infrastructure by back-trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year).

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

Donated capital assets are recorded at their acquisition values as of the date received. The County maintains a capitalization threshold of five thousand dollars with the exception of land as land is listed regardless of cost. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All capital assets are depreciated except for land, construction in progress and infrastructure reported on the modified approach. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

|  | Estimated  |
|--|------------|
| Description  | Lives      |
| Buildings and Improvements (including wastewater and |            |
| water treatment plants)                              | 40 years   |
| Machinery and Equipment                              | 5-20 years |
| Vehicles   | 5 years    |
| Water and wastewater lines                           | 40 years   |

The County's infrastructure consists of roads and bridges including assets constructed or acquired prior to December 31, 1980. County roads and bridges (infrastructure reported in the Governmental-type activities column of the statement of net position) are presented using the modified approach and therefore these assets are not depreciated. In addition, expenditures made by the County to preserve existing roads or bridges are expensed rather than capitalized. Only expenditures for additions or improvements are capitalized.

Additional disclosures about the condition assessments and maintenance cost regarding the County's roads and bridges appear in the Required Supplementary Information.

### **Prepaid Items**

Payments made to vendors for services that will benefit periods beyond December 31, 2019, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and the expenditure/expense is reported in the year in which the services are consumed.

#### Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the County will compensate the employees for the benefits through paid time off or some other means. The County records a liability for all accumulated unused vacation time when earned for all employees.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the County's past experience of making termination payments.

The entire compensated absences liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund(s) from which the employees who have resigned or retired will be paid.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

#### Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported in the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans are recognized as a liability in the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

#### Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

*Restricted* Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

*Committed* The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the County Commissioners. Those committed amounts cannot be used for any other purpose unless the County Commissioners remove or change the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned* Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the County Commissioners. In the general fund, assigned amounts represent intended uses established by policies of the County Commissioners or a County official delegated that authority by resolution or by State statute. State statute authorizes the County Auditor to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The County Commissioners assigned fund balance to cover a gap between estimated revenue and appropriations in 2020's appropriated budget.

*Unassigned* Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit fund balance.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

### Interfund Balances

On the fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are reported as "interfund receivables/payables". Interfund balance amounts are eliminated in the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

### Internal Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental activities are eliminated on the government-wide financial statements. Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

#### **Budgetary Process**

All funds, except agency funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the County may appropriate. The appropriations resolution is the Commissioner's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Commissioners. The legal level of control is at the object level within a department and fund. Any budgetary modifications at this level may only be made by resolution of the County Commissioners.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Auditor. The amounts reported as the original and final budgeted amounts on the budgetary statements reflect the amounts on the original and final amended certificate of estimated resources in place when original and final appropriations were passed by the Commissioners.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Commissioners during the year.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

#### Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for debt service includes both principal and interest. The amount which will be used for principal is not certain. Net position restricted for other purposes include the operation of the title department, busing system administration, County Bureau of Support and care and custody of delinquent juveniles. The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water resources, the water district and storm water. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund. Any revenues and expenses not meeting the definitions of operating are reported as non-operating.

# Note 3. Change in Accounting Principle and Restatement of Net Position

### **Change in Accounting Principles**

The Governmental Accounting Standards Board (GASB) recently issued GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The City evaluated implementing these certain GASB pronouncements based on the guidance in GASB 95.

For 2019, the County also implemented the Governmental Accounting Standards Board's (GASB) *Implementation Guide No. 2018-1*. These changes were incorporated in the County's 2019 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement 88 improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. These changes were incorporated in the County's 2019 financial statements; however, there was no effect on beginning net position/fund balance.

#### Restatement of Net Position

During 2019, it was determined the County had an investment trust fund. This restatement increased net position for the investment trust fund by \$10,686,444, from \$0 to \$10,686,444. This restatement also reduced total assets and liabilities in the agency funds from \$239,013,306 to \$228,326,862.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

# **Note 4. Fund Balances**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

|                                |              |                | Nonmajor     |                  |
|--------------------------------|--------------|----------------|--------------|------------------|
|                                | ~ .          | Developmental  | Governmental |                  |
| Fund Balances                  | General      | Disabilities   | Funds        | Total            |
| Nonspendable                   |              |                |              |                  |
| Unclaimed Monies               | \$94,299     | \$0            | \$0          | \$94,299         |
| Prepaids                       | 195,406      | 183,529        | 150,330      | 529,265          |
| Inventory                      | 208,133      | 23,834         | 71,422       | 303,389          |
| Total Nonspendable             | 497,838      | 207,363        | 221,752      | 926,953          |
| Restricted for                 |              |                |              |                  |
| Capital Projects               | 0            | 0              | 1,676,702    | 1,676,702        |
| Debt Service                   | 0            | 0              | 1,284,305    | 1,284,305        |
| 911 Program                    | 0            | 0              | 66,973       | 66,973           |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

# Note 5. Accountability

The pre-sentence investigation reporting special revenue fund had a deficit fund balance in the amount of \$2,302 as a result of adjustments made on the modified accrual basis of accounting. The general fund is liable for any deficit in this fund and provides transfers when cash is required, rather than when accruals occur.

# Note 6. Budgetary Basis of Accounting

While the County's reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statements of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual are presented in the basic financial statements for the general fund and major special revenue fund.

The major differences between the budget basis and the GAAP basis are:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Investments are reported at cost (budget) rather than at fair value (GAAP).
- 3. Unrecorded cash represents amounts received but not reported by the County on the operating statements (budget), but which is reported on the GAAP basis operating statements.
- 4. Advances In and Advances Out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).
- 5. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 6. Budgetary revenues and expenditures for the county recorder micrographics, certificate of title and elections funds are classified to the general fund for GAAP reporting.
- 7. Encumbrances are treated as expenditures for all funds (budget) rather than restricted, committed, or assigned fund balance (GAAP).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general and major special revenue funds:

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

#### Net Change in Fund Balances

|   | General       | Developmental<br>Disabilities |
|---|---------------|-------------------------------|
| GAAP Basis                                      | (\$2,412,665) | \$535,214                     |
| Net Adjustment for Revenue Accruals             | (517,161)     | 362,600                       |
| Beginning Fair Value Adjustment for Investments | (579,258)     | 0                             |
| Ending Fair Value Adjustment for Investments    | (50,817)      | 0                             |
| Beginning Unrecorded Cash                       | 167,887       | 249,484                       |
| Ending Unrecorded Cash                          | (189,431)     | (203,619)                     |
| Net Adjustment for Expenditure Accruals         | 705,005       | 470,172                       |
| Excess of Revenues Over Expenditures            |               |                               |
| County Recorder Micrographics                   | (3,733)       | 0                             |
| Certificate of Title                            | (89,013)      | 0                             |
| Elections                                       | (68,666)      | 0                             |
| Encumbrances                                    | (1,228,206)   | (540,463)                     |
| Budget Basis                                    | (\$4,266,058) | \$873,388                     |

# Note 7. Deposits and Investments

Monies held by the County are classified by State statute into two categories. Active monies are public monies determined to be necessary to meet current demands upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Monies held by the County which are not considered active are classified as inactive. Inactive monies may be deposited or invested with certain limitations in the following securities provided the County has filed a written investment policy with the Ohio Auditor of State:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States, or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States;
- Bonds, notes, debentures, or any other obligations or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of this state or the political subdivisions of this state, provided the bonds or other obligations of political subdivisions mature within ten years from the date of settlement;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts, in eligible institutions pursuant to ORC sections 135.32;

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

- 6. No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service or consisting exclusively of obligations described in (1) or (2) above; commercial paper as described in ORC section 135.143 (6); and repurchase agreements secured by such obligations, provided these investments are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Securities lending agreements in which the County lends securities and the eligible institution agrees to simultaneously exchange either securities or cash, equal value for equal value, within certain limitations;
- 9. Up to forty percent of the County's average portfolio, if training requirements have been met in either of the following:
  - a. Commercial paper notes in entities incorporated under the laws of Ohio, or any other State, that have assets exceeding five hundred million dollars, which are rated in the highest classification established by two nationally recognized standard rating services, which do not exceed ten percent of the value of the outstanding commercial paper of the issuing corporation, which mature within 270 days after purchase, and the investment in commercial paper notes of a single issuer shall not exceed the aggregate five percent of interim monies available for investment at the time of purchase.
  - b. Bankers acceptances of banks that are insured by the federal deposit insurance corporation and that mature not later than 180 days after purchase.
- 10. Up to fifteen percent of the County's average portfolio in notes issued by U.S. corporations or by depository institutions doing business under authority granted by the U.S. or any state provided the notes are rated in the three highest categories by at least two nationally recognized standard rating services at the time of purchase and the notes mature not later than three years after purchase;
- 11. A current unpaid or delinquent tax line of credit, provided certain conditions are met related to a County land reutilization corporation organized under ORC Chapter 1724; and,
- 12. Up to two percent of the County's average portfolio in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States government, subject to certain limitations. All interest and principal shall be denominated and payable in United States funds.

Reverse repurchase agreements, investments in derivatives, and investments in stripped principal or interest obligations that are not issued or guaranteed by the United States, are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of settlement, unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

### **Deposits**

*Custodial credit risk* for deposits is the risk that in the event of a bank failure, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. At December 31, 2019, \$1,281,011 of the County's bank balance of \$2,779,089 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. One of the County's financial institutions participates in the Ohio Pooled Collateral System (OPCS) and was approved for a reduced collateral floor of 50 percent resulting in the uninsured and uncollateralized balance.

The County has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the County and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposite being secured or a rate set by the Treasurer of State.

#### Investments

Investments are reported at fair value. As of December 31, 2019, the County had the following investments:

| Measurement/Investment              | Measurement<br>Amount | Maturity                     | Standard<br>& Poor's<br>Rating | Percent of<br>Total<br>Investments |
|-------------------------------------|-----------------------|------------------------------|--------------------------------|------------------------------------|
| Net Asset Value Per Share           |                       |                              |                                |                                    |

| Federal Home Loan Mortgage          |                       |                              |                                |                                    |
| Corporation Notes                   | 20,198,281            | Less than one to five years  | AA+                            | 31.91                              |
| Federal Home Loan                   |                       |                              |                                |                                    |
| Bank Bonds                          | 6,971,456             | Less than two to five years  | AA+                            | 11.02                              |
| Total Fair Value - Level Two Inputs | 45,198,314            |                              |                                |                                    |
| Total Investments                   | \$63,289,651          |                              |                                |                                    |

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the County's recurring fair value measurements as of December 31, 2019. The Money Market

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

Mutual Fund is measured at fair value and is valued using quoted market prices (Level 1 inputs). The County's remaining investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs).

*Interest Rate Risk* As a means of limiting its exposure to fair value losses caused by rising interest rates, the County's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the County's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

*Credit Risk* The Standard & Poor's ratings of the County's investments are listed in the table above. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The County has no investment policy that addresses credit risk.

*Custodial Credit Risk* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Farm Credit Bank Notes, Federal National Mortgage Association Notes, Federal Home Loan Mortgage Corporation Notes and the Federal Home Loan Bank Bonds are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty. The County has no investment policy dealing with investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

*Concentration of Credit Risk* The County places no limit on the amount it may invest in any one issuer.

*Component Unit* As of December 31, 2019, the carrying amount of the component unit's deposits was \$289,936, of which \$75,569 was uninsured and uncollateralized by federal depository insurance.

# **Note 8. Property Taxes**

Property taxes include amounts levied against all real and public utility property located in the County. Property tax revenue received during 2019 for real and public utility property taxes represents collections of 2018 taxes.

2019 real property taxes are levied after October 1, 2019, on the assessed value as of January 1, 2019, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2019 real property taxes are collected in and intended to finance 2020.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statutes permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2019 public utility property taxes which became a lien December 31, 2018, are levied after October 1, 2019, and are collected in 2020 with real property taxes.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

The full tax rate for all County operations for the year ended December 31, 2019, was \$15.60 per \$1,000 of assessed value. The assessed values of real and public utility tangible property upon which 2018 property tax receipts were based are as follows:

| Real Property                    | \$3,095,309,030 |
|----------------------------------|-----------------|
| Public Utility Personal Property | 122,679,610     |
| Total Assessed Value             | \$3,217,988,640 |

The County Treasurer collects property tax on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portions of the taxes collected. The collection and distribution of taxes for all subdivisions within the County, excluding the County itself, is accounted for through agency funds. The amount of the County's tax collections is accounted for within the applicable funds. Property taxes receivable represents real and public utility taxes and outstanding delinquencies which are measurable as of December 31, 2019, and for which there is an enforceable legal claim. In the governmental funds, the portion of the receivable not levied to finance 2019 operations is offset to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

#### Tax Abatements

For 2019, The County's property taxes were reduced by \$420,184 under various tax abatement agreements entered into by the following subdivisions:

|                               | Amount of 2019 |
|-------------------------------|----------------|
| Overlapping Government        | Taxes Abated   |
| Community Reinvestment Areas: |                |
| Village of Middlefield        | \$90,771       |
| City of Chardon               | 277,245        |
| Parkman Township              | 52,167         |

## Note 9. Permissive Sales and Use Tax

At the November 1989 general election, a renewal of the one-half percent tax imposed by Commissioners resolution in 1987 on all retail sales made in the County was approved by the voters of the County, with an indefinite time period. Effective February 1, 2004, the sales tax rate was increased by ½ percent. ¼ percent of the increase is permanent to fund the general fund and projects as needed. On September 4, 2008 the Commissioners extended the additional ¼ percent that was due to expire on January 31, 2009 for a continuous period of time to fund operations of the County's radio communications systems. Sales and use tax revenue is credited to the General fund and the 911 Program special revenue fund.

## Note 10. Receivables

Receivables at December 31, 2019, consisted of taxes, accounts (billings for user charged services, including unbilled utility services), special assessments, accrued interest, loans (community development block grant monies loaned to local businesses), interfund, sales tax, and intergovernmental receivables arising from grants and entitlements. All receivables are considered fully collectible, including accounts receivable which, if

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

delinquent may be certified and collected as a special assessment, subject to foreclosure for nonpayment. All receivables except for loans, special assessments and delinquent property taxes are expected to be collected within one year.

Loans expected to be collected in more than one year amount to \$1,207,198 in the revolving loan special revenue fund. At December 31, 2019, there were no delinquent loans.

Special assessments expected to be collected in more than one year amount to \$460,866 in the special assessment bond retirement fund. The amount of delinquent special assessments outstanding at year-end is \$31,307.

Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

.

A summary of the principal items of intergovernmental receivables follows:

|   | Amount       |
|---|--------------|
| Governmental Activities                 |              |
| General Fund                            |              |
| Casino Tax                              | \$553,037    |
| Property Tax Rollbacks and Exemptions   | 484,694      |
| Local Government and Revenue Assistance | 323,506      |
| Grant                                   | 60,840       |
| Miscellaneous                           | 55,239       |
| Total General Fund                      | 1,477,316    |
| Special Revenue Funds                   |              |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

# **Note 11. Related Party Transactions**

During 2019, Geauga County provided facilities, certain equipment, transportation and salaries for administration, implementation and supervision of its programs to Metzenbaum Sheltered Industries Workshop, a discretely presented component unit of Geauga County. Rehabilitative services provided directly to Workshop clients by the County amounted to \$265,000. Non-waiver and other reimbursements from the County amounted to \$561,000.

# **Note 12. Contingent Liabilities**

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the County Commissioners believe such disallowances, if any, will be immaterial.

# Note 13. Joint Ventures

### **Emergency Management Agency**

The Emergency Management Agency (the "Agency") is a joint venture among the County, sixteen townships located within the County and four villages and one city located wholly within the County to provide early warnings of impending violent weather conditions and rescue assistance after the storms hit the area. The five members of the advisory council are appointed as follows: one County Commissioner, one Township Trustee appointed by all Trustees, the City of Chardon Mayor, one Mayor appointed by all other villages or their appointed designee, and one member appointed by the other four members. The degree of control exercised by any participating government is limited to its representation on the Board. The Agency does not have any outstanding debt. The continued existence of the Agency is dependent upon the County's continued participation; however, the County does not have an equity interest in the Agency. The Agency is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit to or burden on the County. In 2019, the County contributed \$10,000 to the agency, which represents 3.01 percent of the total contributions. Complete financial statements can be obtained from the Emergency Management Agency, Geauga County, Ohio.

### Geauga/Trumbull Solid Waste District

The Geauga/Trumbull Solid Waste District (the "District") is a governmental joint venture between Geauga and Trumbull Counties providing services to dispose of solid waste and recycling services. The board of directors consists of six members, the three County Commissioners of each of the member counties. The degree of control exercised by any participating County is limited to its representation on the Board. The District does not have any outstanding debt. The continued existence of the District is dependent upon the County's continued participation; however, the County does not have an equity interest in the District. The District is not accumulating significant financial resources or experiencing fiscal stress that would cause additional financial benefit to or burden on the County. Due to sufficient revenues from the haulers, it was determined that additional contributions were not needed to operate in 2019. Complete financial statements can be obtained from the Geauga/Trumbull Solid Waste District, Geauga County, Ohio.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

### Portage-Geauga Juvenile Detention and Rehabilitation Center

The Portage-Geauga Juvenile Detention and Rehabilitation Center (the "Center") is a joint venture between Portage and Geauga Counties. The degree of control exercised by either participating County is limited to its representation on the Board. A joint board of trustees whose membership consists of four appointees of the Portage County Commissioners and three appointees of the Geauga County Commissioners controls the operation of the Center. The Center does not have any debt outstanding. The continued existence of the Center is dependent upon the County's continued participation; however, the County does not have an equity interest in the Center. The Center is not accumulating significant financial resources or experiencing fiscal stress that would cause additional financial benefit to or burden on the County. In 2019, the County contributed \$639,560 to the Center, which represents 28.99 percent of total contributions. Complete financial statements can be obtained from the Portage-Geauga Juvenile Detention and Rehabilitation Center, Portage County, Ohio.

# Note 14. Public Entity Risk Pools

### County Risk Sharing Authority

The County Risk Sharing Authority (CORSA) is a public entity risk sharing pool among sixty-six counties in Ohio. CORSA was established in 1987 as an Ohio nonprofit, self-insured pool to provide member counties with the best comprehensive property and liability coverage and highest quality risk management services at a stable and competitive price.

Member Counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverage provided by CORSA. CORSA provides comprehensive coverage and risk management services for property and liability coverage including general liability, law enforcement liability, automobile liability, errors and omissions, direct physical loss or damage, equipment breakdown and crime.

CORSA is governed by nine Directors, who are County Commissioners from member counties. The Directors are elected by CORSA members and are eligible to serve three, two year terms. The officers are elected by the Board of Directors, and are eligible to serve two, one year terms. Each member county designates a voting representative and alternate in accordance with CORSA's Code of Regulations.

CORSA has earned the Advisory Standards Recognition from the association of Governmental Risk Pool (AGRIP). The award recognizes those pools that adhere to the eighty-eight "best practices" standards as established by AGRIP's Membership Practices Committee, relating to the governance, management, financial accounting and operation of the pool.

# County Commissioners Association of Ohio Workers' Compensation Group-Retrospective-Rating Plan

The County is participating in the County Commissioners' Association of Ohio (CCAO) Group-Retrospective-Rating Program established under Section 4123.29 of the Ohio Revised Code and acting through CCAOSC, its Service Corporation, as sponsoring organization.

The program is intended to achieve lower workers' compensation costs for the Group and result in the establishment of safer working conditions and environments for each participant. The purpose of CCAOSC, among other things, is to unite the county commissioners of Ohio into an association to promote the best practices and policies in the administration of county government for the benefit of the people of the State of Ohio.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

# Note 15. Jointly Governed Organizations

### Northeast Ohio Areawide Coordinating Agency

Northeast Ohio Areawide Coordinating Agency (NOACA) was created by the County Commissioners of Cuyahoga, Geauga, Lake, Lorain and Medina Counties and is responsible for transportation and environmental planning in the five county region. NOACA is controlled by 45 members including the three County Commissioners. The board exercises total control over the operation of the corporation including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the board. In 2019, the County contributed \$53,184, which represents 4.88 percent of total contributions.

### Geauga County Regional Airport Authority

Geauga County Regional Airport Authority was established in 1992 to manage the day-to-day operations of the airport located in Middlefield Village. A joint board of trustees whose membership consists of seven members; three continuing appointments made by the County, three appointed by the Airport Authority Board of Trustees, and one appointed by Middlefield Village controls the operation of the airport. The board exercises total control over the operation of the airport including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the board. During 2019, the Airport received sufficient revenues and no additional funds were needed.

### North East Ohio Network (N.E.O.N.)

N.E.O.N. is a council of governments formed to provide a regional effort in administering, managing and operating programs for certain individuals with developmental disabilities. Participating counties include Geauga, Ashland, Ashtabula, Cuyahoga, Columbiana, Lorain, Lake, Mahoning, Medina, Portage, Richland, Stark, Summit, Trumbull and Wayne Counties. N.E.O.N.'s operation is controlled by their board, which is comprised of the superintendent's of the Board of Developmental Disabilities of each participating county. N.E.O.N. adopts its own budget, authorized expenditures and hires and fires its own staff. The Council of Governments exercises total control over the operations of N.E.O.N. including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. During 2019, N.E.O.N. received sufficient revenues from State grant monies and no additional funds were needed from Geauga County.

### Family First Council

The Family First Council (the "Council") provides services to multi-need youth in Geauga County. Members of the Council include the Board of Health, County Board of Education, Board of Developmental Disabilities, Juvenile Court, Board of Mental Health, Department of Jobs and Family Services, the County Commissioners, the County Administrator, and the Bureau of Vocational Rehabilitation Administrator. The operation of the Council is controlled by an advisory committee, which consists of a representative from each agency. Funding comes from each of the participants. The Council exercises total control over the operations of the Council including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. In 2019, the County Commissioners contributed \$84,968, which represents 5.89 percent of total contributions.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

### Northeast Ohio Consortium Council of Governments (NOC COG)

The NOC COG provides for implementation of a local workforce investment system to comply with the Workforce Investment Act. The NOC COG board consists of thirty three members, eleven from each participating County. The operation of the council is controlled by an advisory committee, which consists of a representative from each agency. Funding comes from each of the participants. NOC COG, a private not-for-profit entity with a status as a 501(c)3 organization, functions as the fiscal agent. The Board of Trustees for NOC COG are appointed by the Board of County Commissioners of each county. The Board exercises total control over the operations of NOC COG, including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board.

### Northeast Ohio Community Alternative Program Facility (N.E.O.C.A.P)

N.E.O.C.A.P is a community based corrections facility that provided residents of the facility educational, vocational, substance abuse and support counseling services. The facility is administered by a Judicial Corrections Board consisting of seven common pleas court judges. The Board consists of two judges each from Trumbull and Lake Counties and one judge each from Ashtabula, Geauga and Portage Counties. The Board adopts its own budget, authorizes expenditures and hires and fires its own staff. Each participant's degree of control is limited to its representation on the Board. The Board exercises total control over the operations of N.E.O.C.A.P. including budgeting, appropriating, contracting and designating management. Funding comes from the State.

# Note 16. Interfund Transfers and Balances

### Interfund Transfers

Interfund transfers for the year ended December 31, 2019, consisted of the following:

|   |                       | Transfers From   |                  |               |                        |  |
|---|-----------------------|------------------|------------------|---------------|------------------------|--|
| Transfers To                                | General               | Totals           |                  |               |                        |  |
| Other Governmental Funds<br>Water Resources | \$8,122,949<br>78,739 | \$1,150,000<br>0 | \$2,136,340<br>0 | \$0<br>19,600 | \$11,409,289<br>98,339 |  |
| Storm Water                                 | 15,256                | 0                | 0                | 0             | 15,256                 |  |
| Totals                                      | \$8,216,944           | \$1,150,000      | \$2,136,340      | \$19,600      | \$11,522,884           |  |

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to provide additional resources for current operations or debt service; to segregate money for anticipated capital projects; and to return money to the fund from which it was originally provided once a project is completed.

### Interfund Balances

Interfund balances at December 31, 2019, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

(1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting records, and (3) payments between funds are made. All are expected to be paid within one year.

|                          | Interfund Receivable |          |          |  |  |
|--------------------------|----------------------|----------|----------|--|--|
|                          | Other                |          |          |  |  |
|                          | Governmental         |          |          |  |  |
| Interfund Payable        | General              | Funds    | Totals   |  |  |
| Other Governmental Funds | \$35,741             | \$11,985 | \$47,726 |  |  |

### Note 17. Capital Assets

Capital asset activity for the year ended December 31, 2019, was as follows:

|   | Balance 12/31/18 | Additions     | Reductions    | Balance 12/31/19 |
|---|------------------|---------------|---------------|------------------|
| Government Activities:<br>Nondepreciable Capital Assets |                  |               |               |                  |
| Land  | \$4,431,621      | \$0           | \$0           | \$4,431,621      |
| Infrastructure  | 136,995,031      | 638,254       | 0             | 137,633,285      |
| Total Nondepreciable Capital Assets                     | 141,426,652      | 638,254       | 0             | 142,064,906      |
| Depreciable Capital Assets                              |                  |               |               |                  |
| Building and Improvements                               | 68,599,992       | 61,300        | (4,698,568)   | 63,962,724       |
| Machinery and Equipment                                 | 12,170,684       | 301,551       | (332,158)     | 12,140,077       |
| Vehicles  | 8,544,161        | 1,091,505     | (464,398)     | 9,171,268        |
| Total Depreciable Capital Assets                        | 89,314,837       | 1,454,356     | (5,495,124)   | 85,274,069       |
| Less Accumulated Depreciation                           |                  |               |               |                  |
| Buildings and Improvements                              | (33,744,869)     | (1,725,031)   | 3,296,671     | (32,173,229)     |
| Machinery and Equipment                                 | (11,289,701)     | (496,475)     | 332,158       | (11,454,018)     |
| Vehicles  | (6,647,661)      | (691,586)     | 414,183       | (6,925,064)      |
| Total Accumulated Depreciation                          | (51,682,231)     | (2,913,092) * | 4,043,012     | (50,552,311)     |
| Total Depreciable Capital Assets, Net                   | 37,632,606       | (1,458,736)   | (1,452,112)   | 34,721,758       |
| Governmental Activities Capital Assets, Net             | \$179,059,258    | (\$820,482)   | (\$1,452,112) | \$176,786,664    |

\*Depreciation expense was charged to governmental activities as follows:

| General Government:       |             |
|---------------------------|-------------|
| Legislative and Executive | \$1,048,808 |
| Judicial                  | 97,557      |

# Note 18. Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

### Net Pension Liability (Asset)/Net OPEB Liability (Asset)

The net pension liability (asset) and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions--between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the County's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net pension/OPEB asset* or a long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 19 for the required OPEB disclosures.

### Plan Description – Ohio Public Employees Retirement System (OPERS)

County Employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information, including requirements for reduced and unreduced benefits):

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost–of–living adjustment on the defined benefit portion of their pension benefit. For those retiring prior to January 7, 2013, current law provides for a 3 percent COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contributions and investment gains or losses resulting from the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

|   | State<br>and Loc |   | Law<br>Enforcem | ent |
|---|------------------|---|-----------------|-----|
| 2019 Statutory Maximum Contribution Rates |                  |   |                 |     |
| Employer                                  | 14.0             | % | 18.1            | %   |
| Employee *                                | 10.0             | % | **              |     |
| 2019 Actual Contribution Rates            |                  |   |                 |     |
| Employer:                                 |                  |   |                 |     |
| Pension ***                               | 14.0             | % | 18.1            | %   |
| Post-employment Health Care Benefits ***  | 0.0              |   | 0.0             |     |
| Total Employer                            | 14.0             | % | 18.1            | %   |
| Employee                                  | 10.0             | % | 13.0            | %   |

- \* Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.
- \*\* This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.
- \*\*\* These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

For 2019, The City's contractually required contribution was \$4,646,162 for the traditional plan, \$128,622 for the combined plan and \$132,503 for the member-directed plan. Of these amounts, \$417,835 is reported as an intergovernmental payable for the traditional plan, \$9,088 for the combined plan, and \$11,018 for the member-directed plan.

### Plan Description - State Teachers Retirement System (STRS)

Plan Description – County licensed teachers and other faculty members participate in STRS Ohio, a costsharing multiple employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2019 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For 2019, the full employer contribution was allocated to pension.

The County's contractually required contribution to STRS was \$13,288 for 2019. Of this amount \$556 is reported as an intergovernmental payable.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability (asset) for OPERS was measured as of December 31, 2018, and the net pension liability for STRS was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of the respective measurement dates. The County's proportion of the net pension liability (asset) was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

| OPERS<br>Traditional Plan | OPERS<br>Combined Plan   | STRS  | Total  |
|---------------------------|--|---|--|
|                           |  |   |  |
|                           |  |   |  |
| 0.24358576%               | 0.19806776%  | 0.00071375%   |  |
| 0.24876479%               | 0.20564251%  | 0.00066021%   |  |
|                           |  |   |  |
| -0.00517903%              | -0.00757475%   | 0.00005354%   |  |
|                           |  |   |  |
|                           |  |   |  |
| \$66,713,202              | \$0  | \$157,842   | \$66,871,044   |
| 0                         | (221,483)  | 0   | (221,483)  |
|                           |  |   |  |
| 14,250,419                | 62,164   | (209,973)   | 14,102,610   |
|                           | Traditional Plan         0.24358576%         0.24876479%         -0.00517903%         \$66,713,202         0 | Traditional Plan         Combined Plan           0.24358576%         0.19806776%           0.24876479%         0.20564251%           -0.00517903%         -0.00757475%           \$66,713,202         \$0           0         (221,483) | Traditional Plan         Combined Plan         STRS           0.24358576%         0.19806776%         0.00071375%           0.24876479%         0.20564251%         0.00066021%           -0.00517903%         -0.00757475%         0.00005354%           \$66,713,202         \$0         \$157,842           0         (221,483)         0 |

2019 pension expense for the member-directed defined contribution plan was \$176,822. The aggregate pension expense for all pension plans was \$14,279,432 for 2019.

At December 31, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| proportionate share of contributions   | 1,044,820        | 3,164         | 367,775   | 1,415,759    |
|  |                  |               |           |              |
| Total Deferred Inflows of Resources    | \$1,920,803      | \$93,623      | \$376,173 | \$2,390,599  |

\$4,781,992 reported as deferred outflows of resources related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability or increase to the net pension asset in 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

|                          | OPERS<br>Traditional<br>Plan | OPERS<br>Combined<br>Plan | STRS        | Total        |
|--------------------------|------------------------------|---------------------------|-------------|--------------|
| Year Ending December 31: |                              |                           |             |              |
| 2020                     | \$5,272,096                  | \$7,759                   | (\$182,171) | \$5,097,684  |
| 2021                     | 2,641,061                    | (1,772)                   | (144,756)   | 2,494,533    |
| 2022                     | 840,023                      | (767)                     | (24,480)    | 814,776      |
| 2023                     | 4,211,171                    | 14,171                    | 2,890       | 4,228,232    |
| 2024                     | 0                            | (5,441)                   | 0           | (5,441)      |
| Thereafter               | 0                            | (4,591)                   | 0           | (4,591)      |
| Total                    | \$12,964,351                 | \$9,359                   | (\$348,517) | \$12,625,193 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

### **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2018, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2018, are presented below.

|                               | OPERS Traditional Plan          | OPERS Combined Plan             |
|-------------------------------|---------------------------------|---------------------------------|
|                               |                                 |                                 |
| Wage Inflation                | 3.25 percent                    | 3.25 percent                    |
| Future Salary Increases,      | 3.25 to 10.75 percent           | 3.25 to 8.25 percent            |
| including inflation           | including wage inflation        | including wage inflation        |
| COLA or Ad Hoc COLA:          |                                 |                                 |
| Pre-January 7, 2013 Retirees  | 3 percent, simple               | 3 percent, simple               |
| Post-January 7, 2013 Retirees | 3 percent, simple through 2018, | 3 percent, simple through 2018, |
|                               | then 2.15 percent, simple       | then 2.15 percent, simple       |
| Investment Rate of Return     | 7.2 percent                     | 7.2 percent                     |
| Actuarial Cost Method         | Individual Entry Age            | Individual Entry Age            |

In October 2018, the OPERS Board adopted a change in the investment return assumption, reducing it from 7.5 percent to 7.2 percent. This change was effective beginning with the 2018 valuation.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year of 2006. The base year of 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

During 2018, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a loss of 2.94 percent for 2018.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2018 and the long-term expected real rates of return:

|                        |            | Weighted Average    |
|------------------------|------------|---------------------|
|                        |            | Long-Term Expected  |
|                        | Target     | Real Rate of Return |
| Asset Class            | Allocation | (Arithmetic)        |
| Fixed Income           | 23.00 %    | 2.79 %              |
| Domestic Equities      | 19.00      | 6.21                |
| Real Estate            | 10.00      | 4.90                |
| Private Equity         | 10.00      | 10.81               |
| International Equities | 20.00      | 7.83                |
| Other investments      | 18.00      | 5.50                |
| Total                  | 100.00 %   | 5.95 %              |

**Discount Rate** For 2018, the discount rate used to measure the total pension liability was 7.2 percent for the traditional plan and the combined plan. For 2017, the discount rate used to measure the total pension liability was 7.5 percent for the traditional plan and the combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount *Rate* The following table presents the City's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 7.2 percent, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

|                                      |              | Current       |              |
|--------------------------------------|--------------|---------------|--------------|
|                                      | 1% Decrease  | Discount Rate | 1% Increase  |
|                                      | (6.20%)      | (7.20%)       | (8.20%)      |
| City's proportionate share           |              |               |              |
| of the net pension liability (asset) |              |               |              |
| <b>OPERS</b> Traditional Plan        | \$98,554,798 | \$66,713,202  | \$40,252,547 |
| OPERS Combined Plan                  | (73,285)     | (221,483)     | (328,792)    |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

#### **Actuarial Assumptions - STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation are presented below:

| Inflation                  | 2.50 percent                        |
|----------------------------|-------------------------------------|
| Projected salary increases | 12.50 percent at age 20 to          |
|                            | 2.50 percent at age 65              |
| Investment Rate of Return  | 7.45 percent, net of investment     |
|                            | expenses, including inflation       |
| Discount Rate of Return    | 7.45 percent                        |
| Payroll Increases          | 3 percent                           |
| Cost-of-Living Adjustments | 0.0 percent, effective July 1, 2017 |
| (COLA)                     |                                     |

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| Asset Class          | Target<br>Allocation * | Long-Term Expected<br>Rate of Return ** |
|----------------------|------------------------|---|
| Domestic Equity      | 28.00 %                | 7.35 %                                  |
| International Equity | 23.00                  | 7.55                                    |
| Alternatives         | 17.00                  | 7.09                                    |
| Fixed Income         | 21.00                  | 3.00                                    |
| Real Estate          | 10.00                  | 6.00                                    |
| Liquidity Reserves   | 1.00                   | 2.25                                    |
| <b>T</b> ( 1         | 100.00 %               |   |
| Total                | 100.00 %               |   |

\* Target weights will be phased in over a 24-month period concluding on July1, 2019.

\*\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

**Discount Rate** The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount *Rate* The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

|                              | Current     |               |             |
|------------------------------|-------------|---------------|-------------|
|                              | 1% Decrease | Discount Rate | 1% Increase |
|                              | (6.45%)     | (7.45%)       | (8.45%)     |
| County's proportionate share |             |               |             |
| of the net pension liability | \$230,668   | \$157,842     | \$96,190    |

### Note 19 – Defined Benefit OPEB Plans

See Note 18 for a description of the net OPEB liability

### Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, health care was no longer being funded.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2019, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. As recommended by OPERS' actuary, beginning January 1, 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2019 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required contribution was \$44,458 for 2019. Of this amount, \$3,148 is reported as an intergovernmental payable.

### Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the year ended December 31, 2019, STRS did not allocate any employer contributions to post-employment health care.

### **OPEB** Liabilities, **OPEB** Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB**

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date of December 31, 2018, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. For STRS, the net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an independent actuarial valuation as of that date. The County's proportion of the net OPEB liability (asset) was based on the County's share of contributions

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

|  | OPERS        | STRS        | Total      |
|--|--------------|-------------|------------|
| Proportion of the Net OPEB Liability<br>Prior Measurement Date<br>Proportion of the Net OPEB Liability | 0.24513270%  | 0.00066021% |            |
| Current Measurement Date   | 0.24070112%  | 0.00071375% |            |
| Change in Proportionate Share  | -0.00443158% | 0.00005354% |            |
| Proportionate Share of the Net:  |              |             |            |
| OPEB Asset   | \$0          | (\$11,821)  | (\$11,821) |
| OPEB Liability   | 31,381,745   | 0           | 31,381,745 |
| OPEB Expense   | 2,438,786    | (7,615)     | 2,431,171  |

At December 31, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|  | OPERS       | STRS     | Total       |
|--|-------------|----------|-------------|
| Deferred Outflows of Resources           |             |          |             |
| Differences between expected and         |             |          |             |

| and proportionate share of contributions | 642,846     | 20,163   | 663,009     |
| Total Deferred Inflows of Resources      | \$727,994   | \$34,467 | \$762,461   |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

\$44,458 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or increase to the net OPEB asset in the year ending December 31, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

|                             | OPERS       | STRS       | Total       |
|-----------------------------|-------------|------------|-------------|

| Total                       | \$1,733,087 | (\$32,839) | \$1,700,248 |

### **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date of December 31, 2018. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

| Wage Inflation               | 3.25 percent                   |
|------------------------------|--------------------------------|
| Projected Salary Increases,  | 3.25 to 10.75 percent          |
| including inflation          | including wage inflation       |
| Single Discount Rate:        |                                |
| Current measurement date     | 3.96 percent                   |
| Prior Measurement date       | 3.85 percent                   |
| Investment Rate of Return    | 6.00 percent                   |
| Municipal Bond Rate:         |                                |
| Current measurement date     | 3.71 percent                   |
| Prior Measurement date       | 3.31 percent                   |
| Health Care Cost Trend Rate: |                                |
| Current measurement date     | 10.0 percent, initial          |
|                              | 3.25 percent, ultimate in 2029 |
| Prior Measurement date       | 7.25 percent, initial          |
|                              | 3.25 percent, ultimate in 2028 |
| Actuarial Cost Method        | Individual Entry Age Normal    |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

In October 2018, the OPERS Board adopted a change in the investment return assumption, reducing it from 6.5 percent to 6.0 percent. This change was be effective for the 2018 valuation.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year of 2006. The base year of 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2018, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a loss of 5.6 percent for 2018.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2018 and the long-term expected real rates of return:

|                              |            | Weighted Average    |
|------------------------------|------------|---------------------|
|                              |            | Long-Term Expected  |
|                              | Target     | Real Rate of Return |
| Asset Class                  | Allocation | (Arithmetic)        |
| Fixed Income                 | 34.00 %    | 2.42 %              |
| Domestic Equities            | 21.00      | 6.21                |
| Real Estate Investment Trust | 6.00       | 5.98                |
| International Equities       | 22.00      | 7.83                |
| Other investments            | 17.00      | 5.57                |
| Total                        | 100.00 %   | 5.16 %              |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

**Discount Rate** A single discount rate of 3.96 percent was used to measure the OPEB liability on the measurement date of December 31, 2018. A single discount rate of 3.85 percent was used to measure the OPEB liability on the measurement date of December 31, 2017. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 3.71 percent. The projection of cash flows used to determine this single discount rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2031. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2031, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate The following table presents the County's proportionate share of the net OPEB liability calculated using the single discount rate of 3.96 percent, as well as what the County's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.96 percent) or onepercentage-point higher (4.96 percent) than the current rate:

|                              | Current      |               |              |
|------------------------------|--------------|---------------|--------------|
|                              | 1% Decrease  | Discount Rate | 1% Increase  |
|                              | (2.96%)      | (3.96%)       | (4.96%)      |
| County's proportionate share |              |               |              |
| of the net OPEB liability    | \$40,148,947 | \$31,381,745  | \$24,409,501 |

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2019 is 10.00 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.25 percent in the most recent valuation.

|                              |              | Current Health Care |              |
|------------------------------|--------------|---------------------|--------------|
|                              |              | Cost Trend Rate     |              |
|                              | 1% Decrease  | Assumption          | 1% Increase  |
| County's proportionate share |              |                     |              |
| of the net OPEB liability    | \$30,164,664 | \$31,381,745        | \$32,783,493 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

### **Actuarial Assumptions – STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented below:

| Projected salary increases | 12.50 percent at age 20 to 2.50 percent at age 65                |
|----------------------------|--|
| Investment Rate of Return  | 7.45 percent, net of investment<br>expenses, including inflation |
| Payroll Increases          | 3 percent  |
| Discount Rate of Return    | 7.45 percent   |
| Health Care Cost Trends    |  |
| Medical                    |  |
| Pre-Medicare               | 5.87 percent initial, 4 percent ultimate                         |
| Medicare                   | 4.93 percent initial, 4 percent ultimate                         |
| Prescription Drug          |  |
| Pre-Medicare               | 7.73 percent initial, 4 percent ultimate                         |
| Medicare                   | 9.62 initial, 4 percent ultimate                                 |

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 18.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2019.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

Sensitivity of the County's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

|   |                        | Current               |                        |
|---|------------------------|-----------------------|------------------------|
|   | 1% Decrease<br>(6.45%) | Discount Rate (7.45%) | 1% Increase<br>(8.45%) |
| County's proportionate share<br>of the net OPEB asset | (\$10,087)             | (\$11,821)            | (\$13,279)             |
|   | 1% Decrease            | Current<br>Trend Rate | 1% Increase            |
| County's proportionate share of the net OPEB asset    | (\$13,405)             | (\$11,821)            | (\$9,882)              |

# Note 20. Other Employee Benefits

### **Compensated Absences**

County employees earn vacation and sick leave at varying rates depending on length of service and department policy. All accumulated, unused vacation time is paid upon separation if the employee has at least one year of service with the County.

Twenty-five (25) percent of the accumulated, unused sick leave is paid, up to a maximum of 30 days, to employees who meet all necessary requirements to retire. For employees covered by the collective bargaining unit in the Sheriff's office, the first 500 hours of accumulated unused sick leave is paid at thirty-three (33) percent, accumulated unused sick leave between 501 and 1,000 hours is paid at forty (40) percent, accumulated unused sick leave between 1001 and 1,500 hours is paid at forty-five (45) percent, accumulated unused sick leave over 2,000 hours is paid at fifty-five (55) percent.

Sick and vacation balances do not accumulate for the Workshop employees.

### Health Care Benefits

Some County departments provide life and accidental death insurance to their employees through various life insurance companies. The County provides employee medical, and vision benefits through Anthem, and dental benefits through Delta Dental to all employees. Employees may waive coverage if they wish to.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

# Note 21. Long-Term Debt

The original issue date, interest rate and original issuance amount for each of the County's bonds are as follows:

|   | Original   |               | Original    | Year of  |
|---|------------|---------------|-------------|----------|
| Debt Issue                                  | Issue Date | Interest Rate | Issue       | Maturity |
| Governmental Activities                     |            |               |             |          |
| General Obligation Bonds:                   |            |               |             |          |
| Human Services Building Improvements        | 2009       | 4.52 %        | \$650,000   | 2019     |
| Special Assessment Bonds:                   |            |               |             |          |
| Sanitary Sewer - Aquilla                    | 1984       | 5.00          | \$292,600   | 2023     |
| Sanitary Sewer - Aquilla                    | 1984       | 8.375         | 5,852       | 2023     |

The special assessment bonds will be paid from the proceeds of special assessments levied against benefited property owners in the debt service fund. In the event that a property owner would fail to pay the assessment, the County would make payment.

The Revenue Bonds will be paid from charges for services revenue in the enterprise funds. The OWDA and OPWC loans will be paid from charges for services revenue in the enterprise funds.

Compensated absences are reported in the Compensated Absences Payable account and will be paid from the fund from which the employee is paid. These funds include general fund, aging, care and custody, CASA, children's services levy, child support enforcement, law library resources, community development programs, motor vehicle license, county home, court technology, juvenile court special projects, prosecutor delinquent

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

tax collector, treasurer delinquent tax collector, dog and kennel, 911 programs, 800 system communication, public assistance, mental health, developmental disabilities, real estate assessment, transportation and violence prevention special revenue funds and water resources and water district enterprise funds. Capital Leases will be paid from the general fund and the motor vehicle license special revenue fund. There is no repayment schedule for the net pension liability and net OPEB liability. However, employer pension/OPEB contributions are made from the following funds: general fund, aging, care and custody, CASA, intensive supervision, children's services levy, child support enforcement, law library resources, community development programs, motor vehicle license, county home, court technology, juvenile court special projects, probate court special projects, prosecutor delinquent tax collector, treasurer delinquent tax collector, dog and kennel, 911 programs, pre-sentence investigation, 800 system communication, public assistance, mental health, developmental disabilities, real estate assessment, transportation, pretrial release, common pleas mediation, concealed handgun, DARE grant, and violence prevention special revenue funds and water resources enterprise fund. For additional information related to the net pension and net OPEB liabilities see Notes 18 and 19.

The County's outstanding Local Innovation loan financed through the State of Ohio from direct borrowings related to governmental activities in the amount of \$161,203 was issued to implement planning and efficiency throughout the County.

Principal and interest requirements to retire the County's long-term obligations outstanding at December 31, 2019, are as follows:

|             |               |             | Local                 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

The County's outstanding OWDA loan from direct borrowings of \$7,540,877 related to business-type activities contain provisions that in an event of default (1) the amount of such default shall bear interest at the default rate from the due date until the date of payment, (2) if any of the charges have not been paid within 30 days, in addition to the interest calculated at the default rate, a late charge of 1 percent on the amount of each default shall also be paid to the OWDA, and (3) for each additional 30 days during which the charges remain unpaid, the County shall continue to pay an additional late charge of 1 percent on the amount of the default until such charges are paid. The OWDA loan will be paid from charges for services revenue in the enterprise funds.

The County has entered into a contractual agreement for construction loans from the Ohio Water Development Authority (OWDA). Under the terms of the agreement, OWDA will reimburse, advance or directly pay the construction costs of the approved projects. OWDA will capitalize administrative costs and construction interest and then add them to the total amounts of the final loans. These loans will not have an accurate repayment schedule until the loans are finalized and, therefore, are not included in the schedule of future annual debt service requirements. The balance of the Russell Park Waste Water Treatment plant loan is \$1,444,457.

The County has entered into a contractual agreement for construction loans from the Ohio Water Development Authority (OWDA). Under the terms of the agreement, OWDA will reimburse, advance or directly pay the construction costs of the approved projects. OWDA will capitalize administrative costs and construction interest and then add them to the total amounts of the final loans. These loans will not have an accurate repayment schedule until the loans are finalized and, therefore, are not included in the schedule of future annual debt service requirements. The balance of the Bainbridge Trunk Main Relocation loan is \$351,652.

The County has entered into a contractual agreement for construction loans from the Ohio Water Development Authority (OWDA). Under the terms of the agreement, OWDA will reimburse, advance or directly pay the construction costs of the approved projects. OWDA will capitalize administrative costs and construction interest and then add them to the total amounts of the final loans. These loans will not have an accurate repayment schedule until the loans are finalized and, therefore, are not included in the schedule of future annual debt service requirements. The balance of the Henning Road Waste Water Treatment plant loan is \$382,904.

Lines of credit have been established with the Ohio Water Development Authority in the amount of \$2,509,995 in the water resources enterprise fund. Since the loan repayment schedules have not yet been finalized, a repayment schedule is not included in the schedule of debt service requirements. Until a final repayment schedule is available, the County is paying based on estimates. The balance of these loans is as follow:

|                                    | Balance<br>December 31,<br>2019 | Lines of Credit |
|------------------------------------|---------------------------------|-----------------|
| OWDA Loans Not Finalized:          |                                 |                 |
| Russell Park Waste Water Treatment | \$1,444,457                     | \$1,607,046     |
| Bainbridge Trunk Main Relocation   | 351,652                         | 397,999         |
| Henning Road Waste Water Treatment | 382,904                         | 504,950         |
| Total OWDA Loans Not Finalized     | \$2,179,013                     | \$2,509,995     |

The County's outstanding OPWC loans from direct borrowings of \$508,159 related to business-type activities contain provisions that in an event of default (1) OPWC may apply late fees of 8 percent per year, (2) loans more than 60 days late will be turned over to the Attorney General's office for collection, and as provided by law, the OPWC may require that such payment be taken from the County's share of the County undivided local government fund, and (3) the outstanding amounts shall, at OPWC's option, become immediately due and payable. OPWC loans will be paid from charges for services revenue in the enterprise funds.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

The County has pledged future water resources revenues to repay Revenue Bonds, OPWC loans and OWDA loans. All the debt is payable solely from net revenues and are payable through 2054. Annual principal and interest payments on the water resources debt are expected to require 100 percent of net revenues and 100 percent of total revenues. The total principal and interest remaining to be paid on the debt is \$12,104,652. Principal and interest paid for the current year were \$1,667,763, total net revenues were \$91,075 and total revenues were \$6,836,323.

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors shall never exceed one percent of the total assessed valuation of the County. The Code further provides that the total voted and unvoted net debt of the County less the same exempt debt shall never exceed a sum equal to 3 percent of the first \$100,000,000 of the assessed valuation, plus 1 1/2 percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus 2 1/2 percent of such valuation in excess of \$300,000,000.

The effects of the debt limitations described above at December 31, 2019, are an overall debt margin of \$76,802,321; and an unvoted debt margin of \$30,032,491.

The County has issued four issues of industrial development revenue bonds in the aggregate outstanding principal amount of \$104,335,000 at December 31, 2019, for facilities used by private corporations or other entities. The County is not obligated in any way to pay debt charges on the bonds from any of its funds, and therefore they have been excluded entirely for the County's debt presentation. There has not been any condition of default under the bonds or the related financing documents.

# Note 22. Capital Leases

The County has entered into five interest free leases for copiers. These lease obligations meet the criteria of a capital lease and has been recorded on the government-wide statements. The original amounts capitalized for the capital leases and the book value as of December 31, 2019, was \$18,357.

The following is a schedule of the future minimum lease payments required under the capital lease and present value of the minimum lease payments as of December 31, 2019:

|                                   | Governmental<br>Activities |
|-----------------------------------|----------------------------|
| 2020                              | \$8,580                    |
| 2021                              | 8,580                      |
| 2022                              | 2,143                      |
| Total Minimum Lease Payments      | 19,303                     |
| Less Amount Representing Interest | 0                          |
| Present Value of Lease Payments   | \$19,303                   |

Capital lease payments have been reclassified and are reflected as debt service in the fund financial statements for the general fund and the motor vehicle license special revenue fund. These expenditures are reflected as program expenditures on a budgetary basis.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

# Note 23. Risk Management

### **Primary Government**

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County contracts with CORSA (County Risk Sharing Authority) for all property and liability coverage including automobiles, equipment breakdown, crime, direct physical loss or damage and direct physical loss or damage. The Travelers Insurance Company insures boilers.

Limits of liability for each occurrence are \$1,000,000 with a deductible of \$2,500. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant change in coverage from the prior year.

For Workers' Compensation purposes, the County implemented a charge back program that charges each department based on both claims experience and payroll. With charge back, the proportionate amount of contributions are charged to departments with claims affecting the County's premium. Implementation of the charge back program began with the 2009 budget with a planned phase-in over four successive years at increasing increments of 25 percent each year, and continuing thereafter. The charge back is fully operational.

To further achieve lower Workers' Compensation rates, the County has participated in the BWC Premium Discount Plus program and the Safety Council rebate program to obtain discounts and rebates that are applied against our Workers' Compensation premium.

Workers' compensation coverage is provided by the State. The County pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. The rate is calculated based on accident history and administrative costs.

# Note 24. Related Organizations

### Geauga County Public Library

The County appoints 4 of the 7 members of the governing board of the Library in accordance with Ohio Revised Code 3375.22, however, the County cannot influence the Library's operation nor does the Library represent a potential financial benefit or burden to the County. The County serves in a ministerial capacity as a taxing authority for the Library. Once the Library Board determines to present a levy to the voters, including the determination of its rate and duration, the County must place the levy on the ballot. The Library determines its own budget. The Library did not receive any funding from the County during 2019.

### Geauga County Park District

The Probate Judge of the County appoints the three Park District Commissioners. The District hires and fires staff, and does not rely on the County to finance deficits. The County is not financially accountable for the District nor is the District financially dependent on the County. The District serves as its own taxing and debt issuance authority and is a related organization of the County. The District did not receive any funding from the County during 2019.

# Note 25. Significant Commitments

### **Contractual Commitments**

As of December 31, 2019, the County had the following contractual construction commitments outstanding:

|                                   | Project     | Amount Paid | Remaining  |
|-----------------------------------|-------------|-------------|------------|
| Project                           | Amount      | to Date     | on Project |
| Bainbridge Trunk Line Realignment | \$1,200,000 | \$748,992   | \$451,008  |
| Troy Oaks WWTP                    | 695,213     | 660,383     | 34,830     |
|                                   | \$1,895,213 | \$1,409,375 | \$485,838  |

Remaining commitment amounts were encumbered at year end.

### **Encumbrances**

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At the year end the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

| <b>Governmental Funds:</b> |             | <b>Proprietary Funds:</b> |           |
|----------------------------|-------------|---------------------------|-----------|
| General                    | \$1,228,206 | Water Resources           | \$261,807 |
| Developmental Disabilities | 540,463     | Water District            | 123,215   |
| Other Governmental Funds   | 3,100,186   | Storm Water               | 0         |
| Total Governmental Funds   | \$4,868,855 | Total Proprietary Funds   | \$385,022 |

# **Note 26 – Investment Pool**

. .

The County serves as fiscal agent for the Park Board (the Board), a legally separate entity and the Geauga/Trumbull Solid Waste District (the District), a legally separate entity. The County pooled the monies of the Board and the District with its own for investment purposes. Participation in the pool is voluntary. The investment trust fund is not registered with the SEC as an investment company. The fair value of investments is determined annually. The pool does not issue shares. Each participant will be allocated a pro rata share of each investment at fair value, along with the pro rata share of the interest that it earns. Condensed financial information for the investment pool follows:

| Statement of Net Position |
|---------------------------|
| December 31, 2019         |

| Assets:  |              |
|--|--------------|

| Net Position End of Year           | \$92,526,403 |

### **Deposits**

Custodial credit risk for deposits is the risk that in the event of a bank failure, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. At December 31, 2019, \$742,915 of the County's bank balance of \$1,634,654 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. One of the County's financial institutions participates in the Ohio Pooled Collateral System (OPCS) and was approved for a reduced collateral floor of 50 percent resulting in the uninsured and uncollateralized.

The County has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the County and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposite being secured or a rate set by the Treasurer of State.

### **Investments**

Investments are reported at fair value. As of December 31, 2019, the County had the following investments:

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

| Total Investments                   | \$63,289,651          |                              |                                |                                    |

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the County's recurring fair value measurements as of December 31, 2019. The Money Market Mutual Fund is measured at fair value and is valued using quoted market prices (Level 1 inputs). The County's remaining investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs).

*Interest Rate Risk* As a means of limiting its exposure to fair value losses caused by rising interest rates, the County's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the County's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

*Credit Risk* The Standard & Poor's ratings of the County's investments are listed in the table above. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The County has no investment policy that addresses credit risk.

*Custodial Credit Risk* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Farm Credit Bank Notes, Federal National Mortgage Association Notes, Federal Home Loan Mortgage Corporation Notes and the Federal Home Loan Bank Bonds are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty. The County has no investment policy dealing with investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

Concentration of Credit Risk The County places no limit on the amount it may invest in any one issuer.

### **Note 27 – Subsequent Events**

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the County. The County's investment portfolio and the investments of the pension and other employee benefit plans in which the County participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the County's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

**Required Supplementary Information**

#### **Changes in Assumptions – OPERS Pension– Traditional Plan**

Amounts reported beginning in 2019 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used beginning in 2017 and in 2016 and prior are presented below:

|   | 2019  | 2018 and 2017   | 2016 and prior  |
|---|---|---|---|
| Wage Inflation<br>Future Salary Increases,<br>including inflation<br>COLA or Ad Hoc COLA: | 3.25 percent<br>3.25 to 10.75 percent<br>including wage inflation | 3.25 percent<br>3.25 to 10.75 percent<br>including wage inflation | 3.75 percent<br>4.25 to 10.05 percent<br>including wage inflation |
| Pre-January 7, 2013 Retirees  | 3 percent, simple   | 3 percent, simple   | 3 percent, simple   |
| Post-January 7, 2013 Retirees   | 3 percent,  | 3 percent,  | 3 percent,  |
|   | simple through 2018,  | simple through 2018,  | simple through 2018,  |
|   | then 2.15 percent, simple   | then 2.15 percent, simple   | then 2.8 percent, simple  |
| Investment Rate of Return   | 7.2 percent   | 7.5 percent   | 8 percent   |
| Actuarial Cost Method   | Individual Entry Age  | Individual Entry Age  | Individual Entry Age  |

Amounts reported beginning in 2017 use mortality rates based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

Amounts reported for 2016 and prior use mortality rates based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

#### **Changes in Assumptions – OPERS Pension – Combined Plan**

For 2019, the investment rate of return changed from 7.5 percent to 7.2 percent.

Notes to the Required Supplementary Information For the year ended December 31, 2019

#### **Changes in Assumptions – STRS Pension**

Amounts reported beginning in 2017 incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in 2016 and prior are presented below:

|                                      | 2017  | 2016 and Prior  |
|--------------------------------------|---|---|
| Inflation                            | 2.50 percent  | 2.75 percent  |
| Projected salary increases           | 12.50 percent at age 20 to                                    | 12.25 percent at age 20 to  |
|                                      | 2.50 percent at age 65  | 2.75 percent at age 70  |
| Investment Rate of Return            | 7.45 percent, net of investment expenses, including inflation | 7.75 percent, net of investment expenses, including inflation   |
| Payroll Increases                    | 3 percent   | 3.5 percent   |
| Cost-of-Living Adjustments<br>(COLA) | 0.0 percent, effective July 1, 2017                           | 2 percent simple applied as follows:<br>for members retiring before<br>August 1, 2013, 2 percent per year;<br>for members retiring August 1, ,2013,<br>or later, 2 percent COLA commences<br>on fifth anniversary of retirement date. |

Beginning in 2017, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70% of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For 2016 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Notes to the Required Supplementary Information For the year ended December 31, 2019

### **Changes in Assumptions – OPERS OPEB**

For 2019, the single discount rate changed from 3.85 percent to 3.96 percent and the municipal bond rate changed from 3.31 percent to 3.71 percent. For 2019, the health care cost trend rate was 10 percent, initial; 3.25 ultimate in 2029. For 2018, the health care cost tend rate was 7.25 percent, initial; 3.25 percent ultimate in 2028.

For 2018, the single discount rate changed from 4.23 percent to 3.85 percent.

### **Changes in Assumptions – STRS OPEB**

For 2018, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

### **Changes in Benefit Terms – STRS OPEB**

For 2019, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For 2018, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

# **Required Supplementary Information**

Condition Assessments of the County's Infrastructure Reported Under the Modified Approach December 31, 2019

The County reports its roads and bridges infrastructure assets using the modified approach. The following disclosures pertain to the condition assessment and budgeted versus actual expenditure in 2019 for the preservation of these assets.

The Geauga County Engineer administers a five year program for road and bridge repairs and improvements. This plan changes continually based upon conditional inspections and budget allowances. Factors considered when evaluating a roadway include time since the last surface maintenance, current pavement condition from visual observation, traffic volume, and traffic type. A general overall numerical rating ranging from 0 to 9 is assigned to sections of roadways as a result of the yearly visual observations, with 0 being the lowest ranking and 9 being the highest. It is the practice of the Geauga County Engineer's office to maintain at least eighty percent (80%) of the mileage of the County highway system at an appraisal rating of 5 or more. The most recent assessment found that one hundred percent (100%) of the County roads have a numerical rating of 5 or higher.

Each bridge is evaluated annually based on the State Law and in accordance with Ohio Department of Transportation (ODOT) recommendations. Each bridge is given an ODOT sufficiency rating and an overall appraisal rating based upon bridge inspection rating factors. It is the practice of the County Engineer to maintain bridges in the County where ninety-five percent (95%) of the structures have an overall bridge appraisal rating of 5 or more. The most recent assessment found that ninety-eight percent (99%) of the County bridges have a numerical rating of 5 or higher.

| Condition    | Rating | Number<br>of Bridges | Lane<br>Miles |
|--------------|--------|----------------------|---------------|
| Poor         | 4      | 2                    |               |
| Fair         | 5      | 14                   | 17.6          |
| Satisfactory | 6      | 30                   | 42.0          |
| Good         | 7      | 53                   | 35.3          |
| Very Good    | 8      | 85                   | 60.7          |
| Excellent    | 9      | 3                    | 80.1          |
| Total        |        | 187                  | 235.7         |

The general overall ratings for roads and ODOT sufficiency ratings for bridges are as follows:

# **Required Supplementary Information**

Condition Assessments of the County's Infrastructure Reported Under the Modified Approach December 31, 2019

The following summarizes the overall ratings as of December 31, 2019, 2018 and 2017:

|                | 2019       |            | 2018       |            | 2017       |            |
|----------------|------------|------------|------------|------------|------------|------------|
| Condition      |            | % of       |            | % of       |            | % of       |
| Assessment     | Lane Miles |
|                |            |            |            |            |            |            |
| Fair or Better | 235.7      | 100%       | 235.7      | 100%       | 235.7      | 100%       |
|                |            |            |            |            |            |            |
| Less than Fair | 0          | 0%         | 0          | 0%         | 0          | 0%         |
|                |            |            |            |            |            |            |
|                | Number of  | % of       | Number of  | % of       | Number of  | % of       |
|                | Bridges    | Bridges    | Bridges    | Bridges    | Bridges    | Bridges    |
|                |            |            |            |            |            |            |
| Fair or Better | 185        | 99%        | 185        | 99%        | 184        | 98%        |
|                |            |            |            |            |            |            |
| Less than Fair | 2          | 1%         | 2          | 1%         | 3          | 2%         |

The following is a comparison of the County Budgeted and Actual expenditures for preservation of existing roads and bridges:

| Year | Budgeted<br>Expenditures | Actual<br>Expenditures | Difference  |
|------|--------------------------|------------------------|-------------|
| 2019 | \$13,614,646             | \$11,616,017           | \$1,998,629 |
| 2018 | 11,392,684               | 10,485,805             | 906,879     |
| 2017 | 12,020,998               | 10,532,049             | 1,488,949   |
| 2016 | 11,176,010               | 10,320,405             | 855,605     |
| 2015 | 10,888,590               | 9,064,807              | 1,823,783   |

# **Combining and Individual Fund Statements and Schedules**

# **Combining Statements – Nonmajor Governmental Funds**

### Nonmajor Special Revenue Funds

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. Following is a description of the County's nonmajor special revenue funds:

*Real Estate Assessment* – To account for and report State mandated County-wide real estate reappraisals funded by charges to the political subdivisions located within the County.

*Delinquent Tax Collector* – To account for and report five percent of all certified delinquent real estate taxes and assessments used for collecting on delinquent accounts.

*Prosecutor Delinquent Tax Collector* – To account for and report the prosecutor's portion of five percent of all certified delinquent real estate taxes and assessments used for collecting on delinquent accounts.

*Treasurer Delinquent Tax Collector* – To account for and report the treasurer's portion of five percent of all certified delinquent real estate taxes and assessments used for collecting on delinquent accounts.

*Community Development Administration* – To account for and report federal grant revenue expended for administrative costs of the community development grant program. To account for initial loans made by the County to local businesses and the subsequent repayment of these loans.

*Escrow Interest* – To account for and report interest earned on real estate taxes held in escrow.

*Election Security Block Grant* – To account for and report grant monies expended for elections.

*Court Appointed Special Advocacy (CASA)* – To account for and report grant monies expended for the appointment of Special Court Advocates for juveniles.

*Intensive Supervision* – To account for and report grants from the Ohio Department of Correction for local probation programs.

*Care and Custody* – To account for and report State grant monies expended for the care of delinquent juveniles.

*Court Technology* – To account for and report reimbursements of employees personal use of cell phones expended to upgrade the Courts Computer systems.

*Juvenile Recovery* – To account for and report monies received from juveniles and adults for probation and other court services.

*Juvenile Court Special Projects* – To account for and report monies received from juvenile court services to be used for juvenile court projects.

*Probate Court Special Projects* – To account for and report monies received from adult probation court services to be used for special probate court projects.

*Probate Court Conduct of Business* – To account for and report monies received from probate court fees to be used for the conduct of the business of the probate court.

# **Combining Statements – Nonmajor Governmental Funds (continued)**

### Nonmajor Special Revenue Funds – continued

*Juvenile Interlock and Alcohol* – To account for and report fines collected from offenders used to pay for continuous juvenile alcohol monitoring.

*Common Pleas Indigent Driver* – To account for and report DUI fines used for educational programs.

*Common Pleas Mediation* – To account for and report court fees expended for mediation services in Common Pleas Court.

Common Pleas Special Projects - To account for and report court fees expended for special projects.

**Probation Services** – To account for and report fees collected from offenders expended for probation services.

*911 Program* – To account for and report other revenue receipts from wireless service providers expended for 911 services throughout the County.

*Pre-Sentence Investigation Reporting* – To account for and report State grant monies expended for presentence investigations.

**800** System Communication – To account for and report monies received from the Cleveland Electric Illuminating Company due to the County's close proximity to CEI's nuclear power plant. The County receives monies from CEI to fund an emergency preparedness program.

*Motor Vehicle License* – To account for and report revenue derived from the motor vehicle license tax, gasoline taxes and interest revenue. Expenditures in this special revenue fund are restricted by State law to County road and bridge repair/improvement programs. To account for interest earned on real estate taxes held in escrow.

*Ditch Maintenance* – To account for and report special assessment revenue which will be used to provide irrigation ditches and maintain existing ditches within the County.

*Dog and Kennel* – To account for and report the dog warden's operations, financed by the sale of dog tags and fine collections.

*EPA Water Pollution* – To account for and report federal grants that have been expended to comply with the federal clean water act.

*Mental Health* – To account for and report a County-wide property tax levy and State grants expended for the cost of contracts with local mental health agencies that provide services to the public at large.

*Children's Services Levy* – To account for and report a County-wide property tax levy and State grants expended for the support and placement of children.

*Child Support Enforcement* – To account for and report federal, state and local revenues used to administer the County Bureau of Support.

*Transportation Administration* – To account for and report a reimbursable State grant that is expended for administrative costs of the busing system in the County.

*Aging* – To account for and report federal grants expended for various programs assisting the senior citizens within the County.

# **Combining Statements – Nonmajor Governmental Funds (continued)**

### Nonmajor Special Revenue Funds – continued

*County Home* – To account for and report collection of fees from residents' families for the operations of the County home.

*Public Assistance* – To account for and report federal, state and local revenues used to provide public assistance to general relief recipients.

*Farmland Preservation* – To account for and report local monies set aside for Farmland Preservation.

*Municipal Road Tax* – To account for and report the portion of the permissive license tax that is retained by the County for road projects on major thoroughfares in the villages of the County.

*Law Library Resources* – To account for and report the intergovernmental revenue used for the operations of the County's Law Library.

*Board of Elections – Recount* – To account for and report collection of fees expended to cover the cost of a recount of votes of a precinct.

*Wetland Mitigation Bank* – To account for and report intergovernmental revenue used for the operation of a wetland mitigation bank.

*Targeted Community Alternatives to Prison Grant* – To account for and report intergovernmental revenue used for the support of the Targeted Alternatives to Prison Plan, a funding model developed to increase community corrections alternatives to prison.

*Other Public Safety Funds* – The following Special Revenue Funds operated by the County and subsidized in part by local, state and federal monies as well as miscellaneous sources were combined for reporting purposes due to the small amount of activity during the year:

| SMART Ohio Grant           | DARE Grant                  |
|----------------------------|-----------------------------|
| Violence Prevention        | Indigent Guardianship       |
| Education and Enforcement  | Drug Law Enforcement        |
| Juvenile Indigent Drivers  | Commissary                  |
| Chardon Tower              | Sheriff K-9 Unit            |
| Pretrial Release           | Law Enforcement Block Grant |
| Law Enforcement Assistance | Concealed Handgun           |
| Criminal Investigation     | Federal Grant Drug Court    |

*Workforce Investment Act* – To account for and report federal revenues used for job-training programs. This fund is included with the public assistance fund for GAAP reporting as they are similar in nature.

*County Recorder Micrographics* – To account for and report revenue expended for microfilming county records. This fund is included with the general fund for GAAP reporting as it does not have a revenue source.

*Certificate of Title* – To account for and report revenue derived from charges for services expended for subsidizing the operation of the Title department. This fund is included with the general fund for GAAP reporting as it does not have a revenue source.

*Election Revenue* - To account for and report revenue withheld for the payment of expenses related to the duties of the Board of Elections. This fund is included with the general fund for GAAP reporting as it does not have a revenue source.

# **Combining Statements – Nonmajor Governmental Funds (continued)**

### Nonmajor Debt Service Fund

*Debt Service* – To account for and report the accumulation of resources that are restricted for the payment of general long-term debt principal, interest and related costs.

### Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays including the acquisition or construction of major capital facilities and other capital assets, other than those financed by proprietary funds. Following is a description of the County's nonmajor capital projects funds:

*Construction* – To account for and report note proceeds, grants, and transfers used to purchase or construct County buildings.

*Computerization* – To account for and report the fee monies received by the courts which are expended for computer equipment and updates to equipment used by the County court system.

*Road and Bridge* – To account for and report a voted tax levy that is expended for repair and reconstruction of County roads.

*Permanent Improvement* – To account for and report note proceeds and transfers expended for equipment or renovation of County buildings.

*Water Construction* – To account for and report the construction of water enterprise system assets being financed by special assessment debt.

*HUD Housing/Community Development Block Grant (CDBG)* – To account for and report a federal grant that is expended on major construction projects and to account for recapture of HUD Funds through CDBG and HUD HOUSING HOME programs.

*Transportation Capital Grant* – To account for and report the transportation grant monies which are expended for equipment and buildings used by the County transportation system.

*Courthouse Donations* – To account for and report monies donated for upkeep and improvement of the Courthouse.

# **Combining Statements – Fiduciary Funds**

### Agency Funds

Fiduciary funds are used to account for assets held by the County in a trustee capacity, or as an agent for individuals, private organizations, other governments, and/or other funds. The County's fiduciary funds are agency funds and are purely custodial (assets equal liabilities) and thus do not involve the measurement of results of operations.

**District Board of Health** – To account for the funds and subfunds of the Board of Health for which the County Auditor is the ex-officio fiscal agent as required under Section 3709.31, Revised Code.

**Family First Council** – The County Auditor is the fiscal officer for the council which provides after school activities for multi-need juveniles.

**Emergency Management Agency** – To account for the fund controlled by Disaster Services, as established by Section 5915.07, Revised Code, for which the County Auditor is fiscal agent. Money is received from a federal grant to be used for maintaining an emergency management services department.

**Soil and Water** – To account for the funds and subfunds of the Soil and Water District, established under Chapter 1515, Revised Code, for which the County Auditor is the fiscal agent.

Alimony and Child Support – To account for the collection of alimony and child support payments and the distribution of such monies to the court-designated recipients.

**Building Standards Assessment** – To account for the collection of a three percent fee on County building permits pursuant to section 3781.102 of the Revised Code.

**Court Agency** – To account for the following court activities not being reflected within the County's accounting system: 1. Clerk of Courts auto title fees, and legal (court related); 2. Probate court related receipts; 3. Juvenile court related receipts.

**Emergency Planning** – To account for funds used to implement a County-wide emergency plan for the handling of chemical or toxic material spills or fires, a State mandated program.

**Hotel/Motel Excise Tax** – To account for the collection of revenue from a three percent County imposed lodging tax. The revenue is received by the County who then disburses 99 percent to the Visitor's Bureau and one percent to the municipalities and townships not levying a hotel lodging tax.

**Ohio Elections Commission** – To account for monies which are collected whenever a levy or elected position is placed on the local ballot.

**Payroll** – To account for payroll taxes and other related payroll deductions accumulated from the governmental and proprietary funds for distribution to other governmental units and private organizations.

**Sheriff's Civil** – To account for the activities of the County sheriff's civil account.

**Undivided Library and Local Government** – To account for the collection of shared revenues from the State of Ohio that represents a portion of State income taxes which are returned to the County for use by district libraries and park districts.

**Undivided Local Government** – To account for the collection of shared revenues from the State of Ohio that represents a portion of State income taxes, State sales taxes and commercial activity taxes.

# **Combining Statements – Fiduciary Funds (continued)**

#### Agency Funds (continued)

**Undivided Tangible Tax** – To account for the collection of tangible personal property taxes that are periodically apportioned to the subdivisions and to the County operating funds.

**Undivided Real Estate** – To account for the collection of real estate taxes and special assessments that are periodically apportioned to the subdivisions and to the County operating funds.

# **Statistical Section**

## **Statistical Section**

This part of the Geauga County, Ohio's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the County's overall financial health.

| Contents  | Pages(s)     |
|---|--------------|
| <b>Financial Trends</b><br>These schedules contain trend information to help the reader understand how the<br>County's financial performance and well-being have changed over time.                 | S-2 – S-11   |
| Revenue Capacity  | .S-12 – S-29 |
| These schedules contain information to help the reader assess the County's most significant local revenue, the property tax.  |              |
| Debt Capacity   | S-30 – S-39  |
| These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future. |              |
| Economic and Demographic Information  | S-40 - S-43  |
| These schedules offer economic and demographic indicators to help the reader<br>understand the environment within which the County's financial activities take place.                               |              |
| <b>Operating Information</b>  | S-44 – S-51  |
| Miscellaneous Information   | .S-52 – S-55 |
| These schedules contain various data specific to the County that helps the reader<br>understand additional aspects of the makeup and history of the activities of the County.                       |              |

*Sources:* Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

(1) Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. Beginning in 2007, House Bill 66 switched telephone companies from being public utilities to general business taxpayers and began a four year phase out of the tangible personal property tax on local and inter-exchange telephone companies, at 5 percent for 2010. The last year telephone companies paid tangible personal property tax was 2010.

The tangible personal property values associated with each year were the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by a 10 percent and a 2 1/2 percent rollback, and homestead exemptions before being billed.

Note: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year. By statute, voted rates applied to real property valuations decrease as assessments increase.

The County's basic property tax rate may be increased only by a majority vote of the County's residents.

Overlapping rates are those of local and county governments that apply to property owners within the County.

- (1) Does not include General Health District or Park District levies, special districts that are not part of the County entity for reporting purposes.
- (2) Does not include State reimbursements for homestead and rollback exemptions.
- (3) The County's current reporting system does not track delinquent tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.
- (4) This amount cannot be calculated based on other information in this statistical table because of retroactive additions and deletions which are brought on in one lump sum. Penalties and interest are included, since by Ohio Law they become part of the tax obligation.

NOTE: Agriculture continues to be a changing, dynamic industry in Geauga County, affected by weather, prices and population shifts. Increased interest is noted in growing and marketing more intensive crops, such as fruits and vegetables. The County is unique in both its agriculture and population mix.
